#### CHALLENGE ACCEPTED

Mr. Gravelle Says He Can Open a Safe  
—The Terms Offered.

G. E. Maybee, Windsor, challenged  
Arthur Gravelle, Renfrew, stating that the  
latter could not open a safe by the combi-  
nation provided it is not an even number.  
Mr. Gravelle in reply accepts the chal-  
lenge for any safe Mr. Maybee desires up  
to \$10,000. In a letter Mr. Gravelle says:  
"I name the mayor of Renfrew as holder  
of the deposit. If my attempt to open  
the safe be unsuccessful he may have my  
deposit for his own use. When I win his  
deposit, it shall be paid over to any cor-  
poration, association, institution or board of  
trustees in Renfrew I shall name, to be  
used as their own respective funds."  
In addition to the above wager Mr.  
Gravelle has specified, I will also wager any  
person any sum from \$5,000 to \$10,000  
that I can open a three wheel or four wheel  
lock with or without using the same set  
of three numbers or four numbers selected  
in making the combination.

The acknowledged finishing touch to a  
man's attire is his scarf—and how they do  
accumulate. Darsany you have a drawer  
filled at home. This makes us wonder  
what becomes of all the ties that are sold,  
and yet we're selling. When you see the  
pure silk English make ties we are offering  
at twenty-five cents you won't wonder at  
the selling. Picking was never easier.

#### UNWELCOME GUESTS.

The Residence of Mr. J. H. P. Young  
Burglarized.

Some time during last night the resi-  
dence of Mr. J. H. P. Young, on John st.,  
was entered and ransacked by some party  
or parties who had not been invited. An  
entrance was secured by the raising of the  
kitchen window and removing out of the  
way a number of plants which were upon  
the window sill. It is evident that the  
burglars did not wish to take anything  
that could be easily identified, as the only  
thing missed is \$6, which was taken out of  
two pocket books, which after being rifled  
of their contents were left behind. A pair  
of gold spectacles are the only other articles  
missed. Whether the thieves were dis-  
tressed or not is not certain, but in any  
probability they were, as the upper portion  
of the house was apparently not visited.  
There is no clue as to who the perpetrators  
were.

#### Special Bargains in Over- coats.

We have a lot of bargains in overcoats  
at the Oak Hall. At this season of the  
year overcoat stocks are naturally some-  
what broken. If we carry over any it  
must not be old coats or two of a line. All  
these goods go at a bargain. Come and  
investigate.

#### R. T. of Temperance.

The officers of the Belleville Council  
were installed into office last night by Rev.  
C. W. Watch. The Council is doing ex-  
cellent work and arrangements are being  
made to celebrate the 10th anniversary of  
the founding of the Society. The following  
representatives to the annual Grand Com-  
mittee were elected: Regular representatives,  
Rev. C. W. Watch and W. W. Chown;  
Alternate representatives, Dr. Goldsmith  
and Rev. N. Hill.

FOR THE MEN WHO DID US PROUD.

Veterans of the Fenian Raid, 1866, Fenian Raid, 1870, and Red  
River, 1870, will in the course of a few months be in possession of the  
medal represented in the accompanying cut. While no authoritative  
declaration has been made, it is believed that the medals will be dis-  
tributed by May 24th, next year.

The medals, the product of the Royal mint, are of silver, the same  
size as the ordinary war medal. The reverse, as shown in the cut, con-  
sists of the British design floating in the breeze encircled by a wreath of  
maple leaves and crossed with a straight bar bearing the word "Canada."  
The obverse side bears the usual imperial army long service medal de-  
sign, the standard Queen's head.

The name of the recipient will be stamped on the medal round the  
edge.

The medal is intended for a general service war medal. The special  
applicability will be designated by clasps of which three are authorized,  
bearing respectively, these inscriptions: "Fenian Raid, 1866," "Fenian  
Raid, 1870," and "Red River, 1870."

lary Cups and Saucers, Japanese Ware,

stock of dishes and take advantage of this  
Sale to match them up, as a little money  
will go a long way.

#### STOLE AN OVERCOAT.

A Stranger Visits the Albion Hotel and  
Helps himself.

Yesterday afternoon a man who gave his  
name as Wm. McQuerry, and his home at  
Hamilton, entered the Albion Hotel, be-  
lieving somewhat under the influence of  
liquor. He was minus a coat, but when  
he left in a few minutes, an overcoat be-  
longing to Mr. Jas. McGuire, sr., had dis-  
appeared. Mr. McGuire in company with  
Police Officer Morton, searched for the thief  
and he was located in rear of a business  
place on Front st. and the overcoat was  
found near by. He was arrested and  
brought before the Magistrate this morning.  
He pleaded guilty to the theft of the over-  
coat, giving drunkenness as the excuse for  
the commission of the offence. The Mag-  
istrate remanded him for a week for sen-  
tence.

## SPEED OF RAILWAY TRAINS.

English Officials Taking a Keen Interest in U. S. Speed Tests.

The State Cannot Be 120 Miles an Hour. Says Sept. Turnbull, Who Talks About the Recent Run from London into Scotland.

London, Jan. 9.—Cable reports of the railroad race between Chicago and Omaha are causing abundant comment here in railway circles, while the papers take the opportunity of reviving the ancient question of the comparative merits of the English and American systems.

Travel Superintendant Turnbull of the London and Northwestern, one of the roads which three years ago took part in the celebrated races from London into Scotland, is impatient.

"I have carefully read all the published reports of the great race," he said, "and I feel sorry to see that the English roads—or our own, at all events—have any cause to feel ashamed. It appears from the reports that the average speed for 500 miles was 34 1/2 miles an hour. Here is the record of our own run from London to Aberdeen, Aug. 29, 1905. The journey was divided into two halves—London to Carlisle and Carlisle to Aberdeen. We covered the first half—220 miles—in four hours and thirty-five and one-half minutes, maintaining an average speed between London and Carlisle of 64 1/2 miles an hour, and between Carlisle and Aberdeen of 67 1/2 miles an hour. We covered the second half—240 miles—in three hours and 54 minutes. The average speed from London to Perth was 60 1/2 miles an hour, the average from Perth to Aberdeen 63 1/2 miles an hour. The whole journey from London to Aberdeen—460 miles—was made in eight hours and 32 minutes, including all stops.

No exact record was taken of particularly high speeds, but while upon this subject I and my experts believe the reported top speed of 110 miles an hour on the Chicago, Burlington & Quincy and Chicago & Northwestern must be a cable error. At the same time, we need an ordinary journey to exceed 80 miles an hour on one portion of our route, but stopped owing to objections from our passengers. I may add finally that the grades on the London-Aberdeen route in some places are tremendous, and I should think it hardly possible that they could exceed on the Chicago-Omaha route.

These are the views generally of English railway men, who are zealous of their opinion that English railroading is not to be beaten, despite all statements to the contrary.

RAILWAY THROUGH JUNGLE. The Most Difficult Part of the Great Trans-India Completion.

London, Jan. 9.—The African mails bring news that the most difficult part of the great Uganda Railway is completed, and that before another year is ended Lake Victoria will be reached by rail with the coast. This ocean and lake will be linked across the hottest wilderness of the Dark Continent. It is a daring dash for the riches of Central Africa.

As now planned, the whole length of the railway will be a sheltered harbor in Uganda Bay, on Lake Victoria, from where steamers will run across the great lake to Uganda, the headwaters of the Nile. The British empire will thus penetrate the Dark Continent from the sea, while the Nile will push down from the north and Cecil Rhodes up from the south.

LOD CURSON'S LEVEE. New Victory and Victoria Have Made a Record.

Calcutta, Jan. 9.—The levee on Saturday of Lord Curzon, Viceroy of India, and Lady Curzon was the largest ever held here and was attended by an unusual number of native gentlemen.

Today the Viceroy will receive visits from the Maharajahs of Bikaner, Mysore, Casmir and Patiala, and later in the day will pay return visits to the Maharajahs. On Monday he will receive addresses of welcome from the Calcutta corporation, the Rajahs of Oudh and the British India Association.

Great Lake Under London. Engineering expert of the London & Lancashire Council, has informed that body that underneath London is an immense lake of pure cold water, in shallow basins, 2,566 square miles in extent and 100 feet below the surface of the ground. The water is in minimum two hundred and eighty thousand million gallons, which would give a daily yield of seven hundred and sixty-six million gallons. The suggestion now before the Council is to sink artesian wells for the supply of water. Instead of an extensive scheme of bringing in water from Wales, as has been proposed.

Massacre Story Denied. The statements of people who have just arrived here from the island of Java, south of the island of Palawan, there is no truth in the story that the Spanish have been ordered to massacre the Filipinos. They say that the story is an invention of the priests to prejudice the Filipino people against those who are not more than half a dozen Spaniards on the island, and that all who have been killed fell in warfare.

Sultan Hates Prince George. Moscow, Jan. 9.—According to a despatch from Constantinople the Sultan has paid his respects to Prince George of Greece by an order prohibiting the sale in Turkey of photographs of the new high commissioner of the powers in Crete. The police of the Turkish capital have confiscated all such portraits found in the shops, as well as all maps of Crete, the sale of which, also, is interdicted.

## HIGH SCHOOL INVESTIGATION.

Warm Debate Over the Special Committee's Report.

Mr. Johnson Thinks Marsh Language Was Used—Miss Palen Appointed to Octavia St. School.

The final meeting of the Board of Education of 1898 was held last night, and proved to be lengthy and somewhat heated in its character. The bone of contention was the report of the special committee in reference to the number of scholars leaving the High School and attending Albert College.

Present: Dr. Tracy, chairman; Messrs. W. Johnson, T. Wille, W. C. Reid, J. F. Wille, H. Walker, G. Bennett, J. F. Wille, J. Martin, H. Pringle, I. Diamond, W. P. Hudson, W. Williamson and Rev. Canon Burke.

The minutes of last meeting were read and confirmed.

COMMUNICATIONS, ETC.

From Miss Annie Rosely, requesting balance due of \$22.

From Mr. S. M. Mathews, of Peterboro, asking to be appointed as a teacher upon the High School staff should an additional teacher be appointed.

REPORTS.

The Finance Committee recommended the payment of a number of accounts.

The School Management Committee recommended that Miss Ingeborg Palen be engaged in the place of Miss Annie Rosely, who resigned, and her salary to be fixed at \$300 per year until August, 1899.

That Mr. D. Barrager be permitted to teach temporarily the fourth book to pupils who have been promoted by him and who so desire to be taught by him.

The Printing and Supplies Committee recommended that the balance due to Mr. C. C. Leavens for coal be paid, but in future that all coal be weighed upon the market scales. The coal received was first-class in quality, but quantity could not be entirely satisfactory.

The special committee on High School vs. Albert College reported in substance as follows:

**SPECIAL COMMITTEE RE HIGH SCHOOLS.**

The Special Committee to deal with the matter of pupils leaving the High School and attending Albert College met in pursuance of a resolution of the Board, and a circular was addressed to parties who, in the school, have complaints. The last clause of the circular read as follows:

Should no reply to this be received from you we shall conclude that no objection to the teachers or staff of the High School exists on your part.

The committee met for organization on the 14th of December, 1898, and finally on January 4, 1899.

The committee received 8 written reports to the circular and there appeared before them Dr. Eakins and Mr. S. Burrows, who made their statements orally.

Four complained of discipline being too severe; six complained of want of progress; pupils, the majority of the language and Dr. Eakins took his boy out of school because of the engagement of Miss Palen.

The report of the committee was in substance as follows:

**AS TO DISCIPLINE.**

That in some respect the discipline has been somewhat severe, and they would recommend in this connection that an interval of one week less five nor more than ten minutes be given in the forenoon and afternoon each day. That no pupil be permitted to the assembly room unless for a serious offence, and that the Head Master report same to the Chairman of the Board. That monthly reports be printed at once and used in schools.

**REPORT AS TO PROGRESS.**

The committee are of opinion that the results of the examinations are a fair indication of the progress made by the school and by the pupils generally, and that the same compares favorably with other High Schools.

**AS TO HARBOR LANGUAGE.**

(a) The Principal denies he ever used any to pupils.

(b) That the language complained of applied to teachers not now in the employ of the Board.

(c) Your committee, however, cannot too strongly express their disapproval of the use of harsh language by either the High School or Public School teachers, and recommend that the Committee of School Management deal at once with any case to which their attention may be called.

The Committee recommended that on the engagement of Miss Palen, no other teacher hereafter in the High School that the headmaster be consulted, and that he shall from time to time report to the Chairman of the High School Committee as to the efficiency of the staff.

On motion the Board went into Committee of the Whole on Reports, Mr. W. Williamson in the chair.

The Finance Committee's Report was adopted without discussion.

The School Management Committee's recommendation that Miss Palen be engaged caused some discussion.

Mr. Wm. Johnson thought Miss Palen was entitled to receive a larger remuneration than the committee recommended. He moved that Miss Palen be paid \$400 per year, as she had a first class certificate.

Mr. Walker said he would like to accede to Mr. Johnson's motion, but there were other teachers in the same grade who received but \$350, and it would be unfair to them.

The motion was withdrawn after some further discussion.

The recommendation in reference to Mr. Barrager teaching the fourth book was concurred in after the Chairman of the Board had stated the reasons for allowing Mr. Barrager to teach.

The scholars wished to be taught by Mr. Barrager, and not to attend the High School for pecuniary reasons.

The Printing and Supplies Committee report was adopted.

The Central and High School Committee's report was read and confirmed and the Board adjourned sine die, after the singing of the National Anthem.

**Pastoral Change.**

Rev. Father Carson leaves Frankford for Marquette to take charge of the Parochia there. Father Carson has been in charge of the Frankford Parochia for some years, and his departure will be deeply regretted by the Parishioners.

bert College was taken up, and a majority of the recommendations were unanimously adopted. In reference to the teachers making a monthly report a discussion ensued.

Mr. J. F. Wille was not in favor of a monthly report, but in his opinion a report should be sent to parents fortnightly. The High School was a good school, and we wanted the numerous reports stopped. He moved an amendment that a fortnightly report be made instead of monthly.

Mr. Hy. Pringle did not think it necessary to make a fortnightly report. It was impossible for a teacher to make such a report of the report being made monthly.

Mr. H. Walker spoke in favor of the amendment.

Rev. Canon Burke was in favor of the report being made monthly as recommended by the Committee.

In answer to an inquiry, Mr. E. F. Millburn, the Principal of the High School, said the making of a fortnightly report would not entail much more work upon the teachers.

The amendment prevailed after some further discussion.

The report's recommendation in reference to harsh language and discipline in the school brought forth the discussion of the evening.

Mr. Wm. Johnson, whilst giving credit to the Committee for the excellent report presented, did not refer to the recommendation to the class referring to harsh language. In his opening remarks he referred to the High School and stated that it was not doing well as other High Schools. There was no denying this fact, because it was apparent that there were High Schools around which were doing better work, and there was something wrong. The pupils went away because they were not making good progress. The fault was in the management of the High School. The Committee had done its duty well. The discipline was severe, so the committee states, which had been proven. The Head Master had denied he had used insulting language. But he (the speaker) could produce ex-pupils who had been insulted by the language used to them by the Head Master. Every influence had been brought to bear upon parents not to give evidence at the investigation.

Mr. I. Diamond said Mr. Johnson should have appeared before the Committee and made the statements which he made tonight. The Committee would have considered them and their findings would have been made known to the public. It is a pity that Mr. Johnson's statements were not based upon facts when he made them before the Committee. The Committee had recommended that discipline be less severe in future. One High School on the whole made as good a showing as any in the Province, with but one or two exceptions, and this he could prove by the Minister of Education, Mr. Burrows, whose children left the High School, instead of condemning the teachers condemn the parents in upholding their children.

Dr. Eakins had no fault to find with the staff, but took his children away because Miss Palen was engaged as a teacher. Many of the pupils had gone to Albert College to study certain subjects which the High School teachers had not time to attend to. They had a good staff of teachers, and turn out as good a class of scholars as any High School in the Province, with perhaps one or two exceptions. The report in his opinion was an impartial and fair one.

Mr. Thos. Wille spoke in favor of the report. The headmaster should be given a chance, and no doubt he would do better in the future. We had an efficient staff of teachers and was not in such a condition as some would be led to believe. He was opposed to harsh language being used.

This concluded the discussion on the report and it was adopted with the amendment in reference to fortnightly reports being made.

On motion the Committee rose and recessed.

The report was received and adopted.

Mr. Thos. Wille moved, seconded by I. Diamond, that a deputization be appointed to wait upon the Minister of Education for the giving modern languages which the Board of Education had not time to attend to.

The modern languages should be taught in the Public Schools, as the scholars when young would be more impressed with the language and taught French and German. This was a move in the right direction and one which would do credit to the city and the country.

Mr. Johnson spoke of the curriculum of the Public School being now overloaded, and this would be an additional burden to the pupils.

Mr. J. F. Wille thought some of the subjects on the curriculum were just a name and could be erased, and French and German taught orally. It was in his opinion a move in the right direction.

Mr. Walker thought more should be devoted to the discussion of this important subject, and he would like to see the motion stand as a notice until the next meeting. It was an elaborate scheme. He was not so sure about having these languages taught, as they were only a few years ago, when a cry was raised in this country to have but one language, and the proposed motion meant the introduction of two foreign languages.

The matter was allowed to stand as a notice of motion.

Mr. Johnson's notice of motion at last meeting in reference to reducing the number of representatives upon the Board and the number of members of the city, same as the Aldermen, was allowed to stand.

The matter of payments of Miss Rosely was referred to the Finance Committee.

Mr. J. F. Wille moved, seconded by Mr. Geo. Bennett, the suspension of the rules for the passing of a motion, asking for the number of teachers employed, salary paid same, the number of rooms in school, the number of scholars in each room, the number upon rolls and the attendance.

The matter was allowed to stand as a notice of motion.

On motion the Board adjourned for five minutes, and upon resuming the minutes were read and confirmed and the Board adjourned sine die, after the singing of the National Anthem.

## A HOSTESS REMEMBERED.

Members of O'Flynn's Bible Class Ex-  
press Their Appreciation of Mrs.  
O'Flynn's Kindness.

For a number of years past that flourish-  
ing organization, Mr. F. E. O'Flynn's  
Bible Class, has had as an adjunct a  
Mutual Improvement Association, which  
during the winter holds monthly meetings  
at Mrs. O'Flynn's residence. The unit-  
arian kindness with which they are received by  
their hostess, has always been much  
appreciated by the boys and on several  
occasions they have given expression to  
their gratitude. Last evening at the  
regular meeting of the Association, the  
following address was read:

Not once or twice have the members of  
Mr. O'Flynn's Sunday School Class expressed  
to you their gratitude for the many ways  
in which you have shown your interest in  
us. Oft, however, when not near you, we  
have thought of all your kindnesses and  
mentally thanked you for them.

At this first meeting in 1899 of the class  
"Mutual Improvement," we again want to  
show you in more than words, how much  
we value your friendship and to ask your  
acceptance of this lamp as a memento of es-  
teem and respect.

Those of the class who are Belleville  
appreciate the privilege of meeting fre-  
quently in your home, and to those who  
are "strangers within her gates," your hospi-  
tality is all the more valued.

Anonimity through  
I'll be the hours we have spent under  
your roof, and not a few of us will date  
from the beginning of this year and look  
for your presence.

Signed on behalf of the class,  
E. P. FARMER,  
W. B. DEACON,  
CHAS. SCHUSTER,  
D. O. COLEMAN,  
J. H. REYNOLDS,  
J. W. SHERIDAN,  
CHAS. W. GOOD,  
A. JOHNSON.

Mrs. O'Flynn acknowledged the gift in  
a few graceful and kindly sentences. Miss  
O'Flynn was also presented with a  
handsome bouquet.

three left we offer them at \$5.00.—QUICK

## "Better and Better"

Was the verdict of a critical audience in  
Toronto as Miss Edith F. Miller rendered  
one after another of her beautiful selec-  
tions. One prominent critic said: "She  
uses her brains instead of just chattering."

## THE CITY'S GREATEST INDUSTRY.

150 Students in Attendance at Ontario  
Business College, Filling 40  
Boarding Houses.

A stranger standing on Front st. at noon  
the other day saw an immense crowd of  
young people coming out of the building  
on the corner of Front and Bridge sts., and  
was informed, in answer to his inquiry,  
that they were the students of the Ontario  
Business College. "Well," he said,  
"your City has got one great industry  
away."

There are 150 students now in attend-  
ance, occupying 40 boarding houses in all  
parts of the City. They have come from  
twelve different provinces, states and col-  
onies, and in Ontario from Chatham, St.  
Thomas and Port Arthur on the west,  
from Orillia and Muskoka on the north,  
and from Ottawa in the east, passing all  
the business colleges in the province to  
reach the O.B.C.

The thoroughness of the college training,  
the perfection of its methods and text  
books, of which the Principals are them-  
selves the authors, and the great success  
of its thousands of graduates, scattered

over the whole civilized world, account for  
the prosperity that comes year after year  
to this famous institution.

The seventh edition of "Promissory  
Notes and Drafts," by J. W. Johnson, F.  
C. A., has just been published; the ninth  
edition of Mr. Johnson's work on "Joint  
Stock Company Book-keeping" is now  
passing through the press, and the twelfth  
edition of "The Canadian Accountant" will  
be published before next fall.

Mr. Theodore Wallace, of the City post-  
office, who graduated at O.B.C. just before  
his appointment, has passed the Civil Ser-  
vice Examinations.

The opportunities for employment in  
business houses all over the continent are  
greater than they have been for ten years  
past. Now is the time for ambitious  
young men and women to qualify them-  
selves. The 1899 catalogue of the College  
is sent free to any address. Send for it to

ANOTHER VISIT TO THE POPE

A Quebec French Newspaper Publishes the Rumor.

The Mission of Mr. Belcourt—Claimed That It Had for Its Object the Securing of a Further Delay.

A special telegram to the Mail and Empire from Montreal, Jan 10, states that the Evening Star publishes a rumor that the Pope has written to Sir Wilfrid Laurier requesting him to fulfill his promises respecting a full restoration of the rights of the Catholics in Manitoba with respect to their schools, and it then adds: "We understand that an important clerical gentleman has been instructed to see Sir Wilfrid Laurier concerning this matter and to inform him of the wishes of Leo XIII. It is evident that the visit to Rome of Mr. Belcourt, M.P. for Ottawa, special envoy of the Federal Government, has for its object to obtain a further delay. Has Mr. Belcourt the mission to make new promises to the august old man of the Vatican? It is stated in certain Ministerial circles that, when asking delay, he will explain to the Holy Father that the Washington negotiations, in which Sir Wilfrid is presently engaged, and which take up all his time, prevent the Canadian Prime Minister from attending to the Manitoba School question for the present."

A Popular Young City Lady Weds a Trentonian.

A large number of the fair sex assembled at St. Michael's Church at 8.30 this morning, to witness the marriage of Miss Kate Morris, of this city, and Mr. Owen Fortune, of Trenton. After the marriage ceremony the nuptial mass was celebrated by Monsignor Farrelly. The bride was becomingly attired in ruby cloth, trimmed with lace trimming, hat to match, and looked charming. She was given away by her brother, Mr. Ed. Morris, of West Superior, Wis., and was assisted by her niece, Miss Teresa Morris, of Minneapolis, who was attired in a dress of castor cloth, with sable trimming. The groom was assisted by Mr. W. Doyle, of Frankford. At the conclusion of the ceremony the guests repaired to the residence of the bride's mother, on Strachan st., where a wedding breakfast was partaken of. The young couple left this afternoon on a bridal tour to Buffalo, Rochester and other places. The bride received a large number of presents which were both handsome and costly. The bride is a well-known young lady of this city, having occupied the position as head milliner for some time at Messrs. Sisk & Co. The groom is book-keeper for the Gilmour Company at Trenton, and is exceedingly popular. The congratulations of their many friends will be extended to them.

THE CITY'S GREATEST INDUSTRY.

150 Students in Attendance at Ontario Business College, Filling 40 Boarding Houses.

A stranger standing on Front st. at noon the other day saw an immense crowd of young people coming out of the building on the corner of Front and Bridge sts., and was informed, in answer to his inquiry, that they were the students of the Ontario Business College. "Well," he said, "your City has got one great industry, anyway."

There are 150 students now in attendance, occupying 40 boarding houses in all parts of the City. They have come from twelve different provinces, states and colonies, and in Ontario from Chatham, St. Thomas and Port Arthur on the west, from Orillia and Muskoka on the north and from Ottawa in the east, passing all the business colleges in the province to reach the O.B.C.

The thoroughness of the college training, the perfection of its methods and the looks of which the Principals are themselves the authors, and the great success of its thousands of graduates, scattered over the whole civilized world, account for the prosperity that comes year after year to this famous institution.

The seventh edition of "Promissory Notes and Drafts," by J. W. Johnson, F. C. A., has just been published; the ninth edition of Mr. Johnson's work on "Joint Stock Company Book-keeping" is now going through the press, and the twelfth edition of "The Canadian Accountant" will be published before next fall.

Mr. Theodore Wallace, of the City post-office, who graduated at O.B.C. just before his appointment, has passed the Civil Service Examinations.

The opportunities for employment in business houses all over the continent are greater than they have been for ten years past. Now is the time for ambitious young men and women to qualify themselves. The 1899 catalogue of the College is sent free to any address. Send for it to R. Johnson, Ontario Business College, Belleville.

For the Next Six Months It Will be Central Prison.

Some time ago Neil Darrah, of this city, was given a suspended sentence of six months in the Central Prison for abusing and threatening to do grievous bodily harm and threatening to do grievous bodily harm and threatening to do grievous bodily harm.

It appears to be quite a simple matter to make an "illustrated" paper by filling its pages with stock pictures. This is very different from illustrating the news of the world in an intelligent, artistic fashion, as is done by The Illustrated Buffalo Express.

oyster supper & banquet of the Stirling

Cheese Board of Trade to the buyers who

attended last season, was held last

evening at the Kirby House. After ample

justices had been done to the "good things"

the following toasts were drunk and heartily

responded to:

"The Queen" by all singing God Save the Queen.

"Our Dominion," song, "The Maple Leaf Forever," by Chas. E. Parker.

"Our Ontario Government" was responded to in a clear and telling speech by Mr. Jas. Haggerty, ex-M.P.P.

"The Early Cheese Maker," by Messrs. Morden Bird and James Whittom, the pioneer cheese men of this district. They stated they would not take up much time but strongly advocated the making of butter in winter. Thinking the buyers of their kind their invitation they took their seats and made way for Mr. Daniel Derbyshire of Brockville, who responded to

"Our Dairying Interests," in a short and instructive address. He stated that Canada was the only country in the world where the cheese and butter exporting industry and that Ontario was the banner province and was going to be so still. He advocated the making of fancy butter in winter and fancy cheese in summer. He advised the farmers to keep good cows and to have good warm and well ventilated stables and stated that cows could be made to give as much milk in winter as they do in the month of June by feeding them June feed, which could be had from the silo, thereby the cost paying for their keeping during the winter. He stated he was more than delighted with the gathering here to-night, sincerely hoped to be alive to be present at their next annual supper. Thanking the gathering for their kind hearing, he took his seat amid cheers.

Song by Chas. E. Parker.

"Our Educational Interests," by Mr. W. A. Boldrick, J. S. Carstairs, B.A., and Mr. David Sager.

"Our Professions," by Dr. Parker and Mr. Harry L. Boldrick. Harry stated that there should be all classes of people to make a nation and that he was going to try to be a lawyer, and would remain in Stirling. Thanking them for his hearing he took his chair.

The President was responded to by Mr. James Currie and Mr. William Bird.

"Our Mercantile Interests," by Mr. C. J. Boldrick and Mr. L. Meiklejohn.

"Our Army, Navy and Volunteers," responded to by Major J. Earl Halliwell in his usual happy manner.

"Our Manufacturers," by Thos. H. McKee, in an able address.

"Our Banking Interests," by Mr. W. A. Parker, who stated if it wasn't for the cheese and butter of this country there could be little business in the banking line.

A number of other toasts were proposed and ably responded to, and a hearty vote of thanks to the chairman, Mr. George A. John, and to Mr. Derbyshire, but last came Mr. Kerby, who responded to the toast "The Host and Hostess" by the singing of the song "The Old Field Shovel." The meeting was then brought to a close by the singing of God Save the Queen.

**A MAN MARRIES HIMSELF.**

Windsor, Ontario, Marriage Mecca, Now Presents the First Case in Canada's Record.

Toronto, Jan. 17.—A man may not marry his grandmother, but it seems that a man may marry himself.

On file in the office of the Provincial registrar are papers of a most unusual nature, testifying that John William Pothier of Malton Township, Essex County, place of birth in England, aged 30 years, did marry and espouse Lois Marie, 30 years old, residing in Elgin County, the ceremony being performed at Windsor on Oct. 12, 1898, by the groom. He is a Presbyterian and she an Episcopalian. The officiating clergyman is signed by the groom himself.

This is the first time that a man has Canada performed the ceremony for himself. Accompanying the papers is a plaintive note from the division registrar of Windsor asking for instructions in the matter, as up to the time of writing he has been unable in any way to find evidence that the return was not made in good faith.

The question naturally arises whether the man's solemnization of marriage of himself by himself is legal. The only way, in the opinion of the Deputy Attorney-General, to determine this would be by laying the case before the courts. Some years ago a similar transaction took place in the Old Country, but was referred by the papers only as a curious happening.

There seems to be nothing in the Marriage Act to prevent an officiating clergyman being a party to his own wedding, as it reads:

"The following persons may solemnize marriages:—(1) The minister of the church of every church and religious denomination duly ordained or appointed according to the rites and ceremonies of the church or denomination to which they respectively belong."

It appears also that marriage is made in Windsor as an unrecorded rate. Accompanying the particulars of the above case is the report stating that last year out of a population of 10,000, 555 marriages were celebrated, while in Toronto for the same time, with a population of 200,000, the number was only 1,600.

## WHAT THE CZAR PROPOSES.

Ten Points Which He Puts Forward for Consideration.

On Their Face These Propositions Read Very Well, But, of Course, Must Be Considered by the Powers as They Will Effect Each Individual Case.

St. Petersburg, Jan. 17.—The czar issued by Count Muraviev, Minister of Foreign Affairs, regarding the coming marriage of the czar's daughter, the Grand Duchess Anastasia, to the Russian prince, the Duke of Saxe-Coburg and Gotha, the following points, namely:

First.—To agree not to increase naval or military forces, and the corresponding budgets for a fixed period.

Second.—To endeavor to find means of reducing the cost of the czar's household, and to limit the number of the czar's personal expenses.

Third.—To restrict the use of the most terrible of existing explosives, and thereby to forbid the throwing of any explosives from balloons or aeroplanes.

Fourth.—To forbid the employment of submarine torpedoes and similar contrivances.

Fifth.—To undertake not to construct vessels with rams.

Sixth.—To apply the Geneva Convention to naval warfare.

Seventh.—To neutralize vessels, saving the right of the United States to the use of the same for the purpose of the coast guard.

Eighth.—To revise the declaration concerning the laws and customs of war, and to prohibit the use of poison.

Ninth.—To accept the principle of mediation and arbitration in such cases as may be decided by the powers.

## Daily Intelligence.

"A POSER."

Such is the title of a cartoon which appears in that comic journal, the Toronto Globe. It purports to represent Sir Mackenzie Bowell sitting comfortably in a chair, reading a Globe editorial on the abolition of the Senate, and a young Canuck standing beside him, contemplating the mechanism of a five wheel toy wagon, four of which supports the body of the wagon and the fifth is attached to the rear of the vehicle, in the same manner as in a motor car. The wheel is labeled "Senate," and the following dialogue is represented as having taken place:

"Sir Mackenzie—Well, Jackie, isn't that a fine wagon?"

"Jack Canuck, Jun.—The wagon is all right, but please tell me what good does the fifth wheel do?"

Then follows in parenthesis (He pauses for a reply).

Why a pause; the position of the fifth wheel suggested an immediate answer: "Jack Canuck, Jun.—I might have been told that that fifth wheel, placed as it was at the rear of the wagon, performed the same service as that of the fifth wheel on a motor car, and that, when in skiff hand, it prevents the ship of state from stranding on such rocks as the Nansam Railway expenditure, proposed by the Mackenzie Government, the opposition to which was led by that veteran Liberal, Senator Penny, at the time editor of the Montreal Herald; the Short Line scheme which Sir John Macdonald's Government tried to push through the Senate, but which was defeated on a motion of Senator Miller, a Conservative; the Gormley scheme proposed by the Mackenzie Government for the purpose of electing the late M. C. Cameron; the Drummond County Railway bill, which the coffers of the country were to be flooded out of a full million of dollars; the Mackenzie-Mann scheme, by which \$7,750,000 acres of mineral lands, valued by the Government at \$10 per acre, making a total value of the modest sum of \$77,500,000, for the construction of 150 miles of narrow gauge railway; the despoliation of the Common School Fund of Manitoba to the extent of \$300,000 for party purposes; and from many other dangerous shams, which a study of the history of the proceedings of the Senate will prove to Jack Canuck, Jun., the absolute necessity of that fifth wheel in the interest of good Government.

This fifth wheel is not alone useful in preventing the ship of state from wreck on such rocks as herein pointed out, but has staved the vessel into suspected channels, resulting in the discovery of Bay de Chaleurs swindles, and the unearthing of chicaneries and robberies of thousands of dollars from the public chest; the black-mailing of contractors; the misappropriation of public funds in printing contracts, etc., etc., and other acts which the Court has decided were misappropriations of public funds, and ordered restitution for those who profited thereby. In such a young Canuck, the usefulness of that fifth wheel has been demonstrated; further examples might be furnished which would fill columns, but these are sufficient for one who does not expect to live and revel in ill-gotten wealth.

The fact that the Senate fifth wheel has proved so useful in steering the ship of State into channels which led to the discovery of these peculations, and the prevention of others, appears to be the sole reason for the Globe and its satirist desire for the abolition of the fifth wheel, in order that the "business is business" class of the party may have full scope in the future in their raids upon the public chest.

Shoot the policeman and the road is clear for the thief.

Cut away the rudder from the ship of State and the wreckers are sure of their booty.

Abolish the fifth wheel and the "business is business" speculators are safe from detection so long as there is an unscrupulous and corrupt majority behind them.

The Globe has done good service, unintentionally, in presenting this fifth wheel cartoon to its readers. It is too suggestive to be misunderstood or misapprehended by an intelligent community.

**What She Believes.**

I believe Hood's Sarsaparilla is a good medicine, because I have seen its good effect in the case of my mother. She had been ill when she was weak and her health was poor and she was not able to do her work. She took Hood's Sarsaparilla and she got well and she was able to do her work again.

**Former Resident Dead.**

Sarah H. Kennedy wife of the late James Kennedy, died yesterday at 207 Church st., Toronto. Deceased was formerly a well known resident of the city. Mr. Kennedy was for years a prosperous grocer on cor. of Hotel and Front st. and he died here a number of years ago. The interment of Mrs. Kennedy's remains will take place at St. Michael's cemetery here to-morrow. Many warm friends among our older citizens will regret to hear of the demise of this respected lady.

Good health is worth more than anything else to you, and every bottle of Hood's Sarsaparilla contains good health.

**After Eighteen Years**

Mr. Edward Morris, of West Superior, Wisconsin, who was present at the wedding of his sister yesterday morning, has not been in his native city for eighteen years. Since he left here a youth he has developed into a man of great wealth and is another example of Belleville's many successful boys. He will not return to his western home for a couple of weeks.

**But One Book Bindery in Belleville.**

**Continued Activity is Reported in Iron Ores.**

Government Assayer Wells reports continued activity in iron ores in this and the contiguous counties. On Saturday he received five specimens of the ore, two from the Iron Range, one from Glenora, and one from the Iron Range. Gold specimens of great richness have also been forwarded from Parry Sound. The active enquiry for arsenic and tellurium continues.

**Still Brisk.**

There is apparently a scarcity of potatoes in this section of the country, in spite of the fact that the price is asked for them. On the market this morning a few bags were offered for sale and the prevailing price was \$1 per bag.

## BELLEVILLE ICE RACES.

This Old Time Sport Suc-  
cessfully Carried Out.

Good Races, Good Time Made and  
Good Management—A Fair Track  
and a First-Class Field of Trotters  
—Only One Race Completed.

The third annual ice race meeting held  
in Belleville commenced yesterday, and was  
in every way a grand success. Through  
the indefatigable efforts of the officers of  
the Association, Belleville was included in  
a circuit which had the aim desired,  
namely, of bringing here first-class trotters.  
The management was in capable hands  
and the sport honest. That it is popular  
here was shown by the fact that at least  
1,000 people were upon the scene, and a  
large majority remained until the last heat  
was trotted. They came to witness honest  
racing, and in this they were not disap-  
pointed.

The course, which was one mile in length,  
was laid out in kite shape from a point at  
the south end of the Grand Junction  
dock. It was a good track, the only fault  
being one or two bad holes which could  
be remedied. The judges stand was so  
placed that the horses started on the north  
west corner and finished on the east side.  
An excellent view of the races was attained  
from any portion of the track. The officials  
were:

Judges—Dr. D. W. Dulmage and S.  
Curry, Belleville, and Arthur Cos, of  
Madoc.

Timer—Dr. Dolan.

Before the horses were sent off for the  
first heat Dr. Dulmage, who was also the  
starter, warned the drivers that the races  
would be trotted under Association rules,  
and that no jockeying would be allowed.  
He proved to be on this, as on similar oc-  
casions, a capable starter, and his decisions  
gave general satisfaction.

#### NOBLE WOMAN GONE.

Mrs. Rogers, President of the Women's  
Auxiliary of the Diocese, is Dead.  
(Special to the INTELLIGENCER.)

Kingston, Jan. 17.—The wife of R. V.  
Rogers, Q.C., died to-day, after a long ill-  
ness. She was a woman of beautiful char-  
acter and wide influence in religious and  
philanthropic work. Gifted with the best  
qualities of leadership, as well as gentle  
influence, her services were of the highest  
value in various circles of activity, and the  
deprivation cannot be measured now, but  
must be realized by saddening experience.  
The Women's Auxiliary of Ontario Diocese  
loses its capable leader, and foremost  
worker, and will be bereaved indeed.  
To St. James' congregation she was all  
in all, whether in the guilds, the Sun-  
day school, the service, who as Mayor  
and city official, was highly esteemed.

[Ed. Note.—Mrs. Rogers was well  
known and much loved in religious circles  
here. She presided at a convention held  
here in June.]

What She Believes.  
I believe Hood's Sananella is a good  
medicine, because I have seen its good ef-  
fects in the case of my mother. She has tak-  
en it when she was weak and her health was  
poor and she says she knows of nothing bet-  
ter to build her up and make her feel strong.

#### Harry Meagher's Funeral.

There was a large attendance at the  
funeral of the late Harry Meagher. The  
remains were conveyed to St. Michael's  
Church, where services were held, being  
conducted by Rev. Father Connolly, after  
which the interment took place at the R.  
C. cemetery. A number of beautiful floral  
designs were contributed by friends. The  
bearers were J. Dunn, F. Mandell, A.  
Tisdale, J. Lynch, W. Barnden and J.  
Preshele.

l Druggists refund the money if it fails to

#### Epiphany Festival.

The annual Epiphany Festival of St.  
John's Church will be held in the City  
Hall to-night and should be largely attend-  
ed. A number of cards and gifts will be  
rendered and a beautiful tableau will be  
presented. A special feature will be a  
fancy drill by 24 young ladies in costume,  
in command of Sergt. Sharp, of the XV.  
Battalion.

#### Police Notes.

In police circles everything at present is  
exceedingly quiet. No arrests have been  
made for nearly a week.

A boy named Fred Thorpe reports that  
another boy, named Geo. Bates, yesterday  
sent a letter from him, opened it and re-  
fused to return it.

#### A RUNAWAY.

Exciting Few Minutes For a Country  
Visitor.

At nine o'clock this morning a team of  
horses attached to a buggy was being  
driven down Pinnacle st. by a farmer.  
When opposite the Quinte the tongue dropped  
and, striking one of the horses on the  
heels, he made a plunge which broke one  
of the traces. Both horses then became  
unmanageable and bolted. Turning down  
Bridge st. very rapidly, the buggy swerved  
so as to throw out one of the occupants,  
the Captain of the Salvation Army, who  
got a severe shaking up, but fortunately  
had no broken bones. Though the team had  
by this time become wild, the owner held  
on to them bravely, and while onlookers  
expected every moment to see him thrown  
out, he managed to keep in the  
buggy, and finally brought the horses to a  
standstill before they reached the lower  
bridge.

#### Changeable Weather and Grip

Extremely cold for a few days and then  
warm for a few days is just the weather  
for grip and colds. A person should be  
careful and not change heavy clothing.  
Keep on wearing your big heavy coat, and  
you will come out winner in the spring.  
If you are short of a warm coat, the O.K.  
Hall can supply you at a moment's notice.

#### MARRIAGE SETTLE- MENT OF 1838.

Belleville Case Heard at Osgoode Hall  
Yesterday Morning.

Toronto News: Mr. Justice Robertson  
was asked at Osgoode Hall to-day to con-  
strue a marriage settlement made in 1838.  
The case comes from Belleville, in the vi-  
cinity of which all of the parties reside.  
The settlement in question was conferred  
upon William and Jane Robertson, and  
their daughter, Mrs. S. S. Lazier asked for  
the construction of the settlement. She  
claims the whole amount, Ethel Robert-  
son, daughter of Mrs. Lazier's father's  
brother, is a claimant for half the amount.  
Judgment was reserved.

Mr. E. G. Porter who is counsel for  
W. H. Ponton in the Napanee bank rob-  
bery case, appeared for Mrs. Lazier.

Brief Illness.

Mrs. James Sanderson, wife of a mer-  
chant at Northport, died on Saturday morn-  
ing after a few hours' illness. Deceased  
was a daughter of Mr. Enoch Mills, of  
Northport, and was born there about 30  
years ago. She was married 7 years ago to  
her bereaved husband. Deceased was  
well known and highly esteemed for her  
many sterling qualities. The funeral took  
place yesterday and was very largely  
attended. Services were held at her late  
residence, after which the remains were  
conveyed to Pictou and placed in the  
vault. With her was buried her infant  
child. A number from the city attended  
the obsequies.

General Manager Hays Says the Mid-  
land Will be the G.T.R. Grain Route.

General Manager Hays, of the G.T.R.,  
informed a deputation from Mesford yester-  
day that the Grand Trunk had centred  
its efforts on the development of the  
short route from Midland to Montreal, by  
way of Belleville. The road, he declared,  
would not enter upon any policy which  
would divert the north-west grain trade  
from this route.

#### Sunday School Festival.

The annual festival of Christ Church  
Sunday School, held in Albert Hall last  
evening, was well attended and was very  
successful. Presents were distributed to  
the children and an interesting programme  
of songs, recitations and drills was pre-  
sented in a pleasing manner. The success  
of the festival was largely due to Mrs.  
(Rev.) Hutton and other friends of the  
children.

#### Some Plain Questions.

Have you catarrh? Have you offensive  
breath? Have you bronchitis? Have you  
slight symptoms of consumption? Then  
send for a free sample of Catarrhoe-  
ne. What is catarrhoe-ne? Not a snuff, wash  
or ointment, but an odorous gas, which is  
carried by air directly to the diseased parts.  
It penetrates wherever air can go, and  
never fails to cure. We do not ask you to  
believe this until you have tested it for  
yourself. Send for a free sample bottle gratis to  
N. G. ELLISON & Co., Kingston, Ont.

## THROUGH THE ICE.

Geo. C. Ritchie, of the Bank  
of Montreal, Drowned  
While Skating on  
the Bay.

A Scene of Pleasure Invaded By the  
White Horse of Death—Thought-  
less of Danger Two Skaters Glide  
Into the Icy Waters—The Lady  
Rescued, Ritchie Drowned—The  
Body Recovered, Will Be Interred  
Here—He Was a Nephew of Chief  
Justice Ritchie.

Taking advantage of the beautiful moon-  
light and the clear surface of the frozen  
bay, there were many happy skaters out  
last night. Amongst the number were  
Mr. Geo. C. Ritchie, a young man, clerk  
in the Bank of Montreal, and Miss Mary  
Ward, eldest daughter of Dr. M. D.  
Ward, dentist, of this city. Both were to  
all appearances enjoying themselves, little  
heeding the danger which, sad to relate,  
was about to overtake them, and result as  
it ultimately did, in the death of one of  
them. They skated about for some time  
upon this side of the bay, and some time  
near 10 o'clock were nearing the Prince  
Edward shore, at a point opposite the old  
ferry landing, and some fifty or sixty yards  
east of the toll house of the bay bridge.  
Here the water is of a considerable depth  
and there is quite a current. There is  
quite a large space of water and the ice  
surrounding it is weak. The young man  
and woman in question were in the vicin-  
ity of this dangerous place, but evidently  
did not notice the open space, as they both  
plunged into it. Their screams attracted  
the attention of Messrs. R. A. Arnott, the  
lessee of the bay bridge, Abe Hart and  
Chas. Thompson, the latter two young  
men being residents of Rossmore. It was  
impossible to reach the unfortunate couple  
without a boat, and although they procured  
two as quickly as possible some minutes  
had necessarily elapsed. During this inter-  
val the young people were struggling in  
the icy water, endeavoring in every possible  
manner to keep afloat. Miss Ward suc-  
ceeded in grasping the edge of the ice and  
in this manner was able to keep afloat  
until the rescuers succeeded in reaching her.  
Mr. Ritchie was, however, less fortunate,  
and in consequence, his life was sacri-  
ficed. He was unable to swim, which  
told much against him. He was separated  
some feet from his companion, but called  
upon her to try and keep afloat. He was  
heard to make use of the expression "My  
God," and sank to rise no more. By  
this time the boats had been secured and  
the ice was still clinging to the  
side, was rescued. It is supposed that he  
was in the water nearly 15 minutes, and  
when rescued was much exhausted, in ad-  
dition to being thoroughly chilled. The  
sleeves of his jacket, being wet, froze on  
the ice, and this assisted much in keep-  
ing her up. She was removed as quickly  
as possible to the residence of Mr. Richard  
Arnott, and made comfortable. Dr. Gibson  
was summoned with all haste from this city  
and soon reached the scene and attended  
the young lady.

THE BODY RECOVERED.  
In the meantime Messrs. Hart, Thompson  
and Arnott, with the aid of ropes and  
grappling irons, commenced to search for  
the body of young Ritchie. After about  
half an hour's time Abe Hart recovered it  
in about 30 feet of water, and let a short  
distance away from the place where the  
party went in. The spot at the bottom  
must be exceedingly dirty, as the clothing  
was covered with mud. Although the  
body was somewhat warm there were no  
signs whatever of life. It was carried to  
the toll house, and the police were tele-  
phoned. Dr. Tracy, coroner, and Mr.  
Crombie, manager of the Bank, were also  
notified. Although the hour was late, the  
body was recovered, and a number from  
the city and Prince Edward County flocked  
to the scene. A few of the unfortunate  
young man's companions in the bank were  
present, and the sorrow felt at his untimely  
death was depicted upon their countenances.  
Mr. John G. Frost, undertaker, was  
notified and the remains were con-  
veyed to his warehouse to be prepared for  
burial.

The deceased was a son of the late Rev.  
Mr. Ritchie, an Anglican Minister of Hal-  
ifax, and was born there 19 years ago. He  
was a descendant of a highly respected and  
well-known family, being a nephew of the  
late Chief Justice Ritchie. His mother  
and father are dead. He entered the bank  
some time ago, and step by step was fast  
rising to a position of prominence in bank-  
ing circles. He came to this city in July  
last, having been transferred from King-  
ston. From the first day of his arrival  
until the present time he had been a gen-  
eral favorite. He was kind and affable,  
and made many friends. His untimely  
death was the sole theme of conversation  
upon the streets to-day, and on every  
heart nothing but expressions of the deep  
regret were heard.

He has, since residing here, been an at-  
tentive adherent of St. Thomas' Church.  
Deceased has a half-brother at Annapolis,  
N.S., and a half-brother at Halifax, and  
has been notified of the sad event. The  
remains will be interred here on Saturday  
afternoon, services being held at 3 o'clock  
in St. Thomas' Church.

WARNED OF DANGER.

Before entering upon the lay life, the  
deceased was not by Mr. G. G. Hulio,  
who, to the best of his ability, warned him

of dangerous spots, especially referring to  
the place where he was being out upon  
the bay. The spot where the unfortunate  
occurrence took place in the same where,  
the day previous, two young men had a  
narrow escape from drowning by an ice  
boat sailing into it.

The condition of Miss Ward to-day was  
altogether as desired, and this fore-  
noon she was able to be removed to the  
home of her parents in this city. She is  
suffering considerably from nervous prostra-  
tion.

Mr. R. J. B. Crombie, manager of the  
local branch of the Montreal Bank, and the  
clerks are horrified at the sudden taking  
off of their fellow employee. The manager  
referred to the deceased as being a highly  
intelligent and good young man, and one  
whom they all loved.

Although Dr. Tracy, Coroner, was notifi-  
ed of the occurrence, he did not think it  
necessary to hold an inquest.

MR. CLUTE DEAD.

Well-known Stirling Man Died Last  
Evening.

Mr. R. B. Clute died at Stirling last  
evening. The deceased was a son of  
Richard Clute, and was born in Prince  
Edward County on the 8th of September,  
1815, of U. E. Loyalist stock.

His boyhood and youth were spent in  
Prince Edward County, where he married  
Henah Wright some 60 years ago. The  
children of this marriage are Harriet Milne,  
wife of James Milne of Stirling; Margaret  
Wright, wife of A. J. Wright of Napuka,  
Man.; T. B. Clute, who is now in the

ler of Belleville, who died only last Fri-  
day, and Edith, wife of John Williams,  
barrister of Belleville.

About 45 years ago Mr. Clute removed  
to Hastings County and purchased a farm  
near Frankford, where he resided for some  
years, subsequently removing to Seymour.  
He retired from farming about 25 years  
ago, and went to Stirling, where the rest  
of his life was spent.

Mrs. Clute died in 1881, and the deceased,  
about two years later, married Harriet,  
widow of the late William Goldsmith, who  
survives him.

Mr. Clute joined the Methodist Episco-  
pal Church early in life, and was ever there-  
after a consistent and faithful member of  
that body, being a local preacher for many  
years.

THE PROGRAM MAPPED OUT.

A Solution, Which is Foreseen.

Cautiously, It Thought Feasible—An

Anglo-French Treaty of the Highest

Importance Expected to be the Outcome

of the Unsettled Situation. Will Re-

quire More Performance and Patience.

London, Jan. 21.—The Paris corre-

spondent of the Daily Chronicle says:

"I am informed that Sir Edmund

Monson (the French ambassador)

in an interview with M. Del-

cass (French Minister of Foreign

Affairs) has virtually laid down the

lines of negotiation upon all disputed

points between France and Great Britain.

The program so far amounts to an

Anglo-French treaty of the highest im-

portance. In official circles there is

thought the approaching solution is fore-

shadowed rather cautiously; but, while

the attitude is explicit, it is not

been hinted at as a security realized as

yet, they only leave one or two details of

mutual compensation unmentioned.

The Daily Chronicle, commenting

upon the foregoing despatch from its

Paris correspondent, says it thinks the

news almost too good to be true.

**PACAUD HOWLS FOR PLUNDER.**  
It pays to kick! Pacaud, whom the  
Superior Court of Quebec has condemn-  
ed to disgorge \$100,000 which was im-  
properly taken from the Quebec office of  
Mercier, and handed to this wicked  
on the war path, said like Langelier,  
Choquette, M. C. Cameron, Lister and  
others, in demanding the reward, as will be  
seen by the following despatch sent from  
Quebec to the Montreal Star, which gives  
the latest phase of the Pacaud revolt. Un-  
less a sharp lookout is kept upon the pre-  
sent manipulators of public affairs, Pacaud  
will yet be recouped out of public funds  
for his past services. The despatch says:

"People on both sides of politics here  
are asking what is to come of the  
fight between Mr. Pacaud and the federal  
Government, which is daily grow-  
ing stronger. Replying to the Chroni-  
cle's statement, that the Quebec office  
of the federal Government is postponed for  
the present, the despatch says that  
Mr. Pacaud will be appointed within  
the next few days. It is not, how-  
ever, an attempt to deny the report that  
Mr. Pacaud will be a candidate in the  
elections. In Saturday night's Sol-  
et, Mr. Pacaud continues the record of  
the trouble received by him at the  
hands of the federal Government. A  
leading article on the question of pa-  
tronnage, the paper claims to have re-  
ceived but \$40,000 for some years past  
advertisements during 1897, and \$28,200  
for printing. During the last year, the  
claims to have received printing orders  
from the Government not yet paid, to  
the amount of \$60,000. Since the 10th of  
July last, it declares that it has been  
entirely boycotted by the Government,  
the printing that it was accustomed to  
get having been transferred elsewhere.  
That is to say, adds Mr. Pacaud, that  
out of the quarter of a million dollars  
which will be expended during 1898 for  
printing, amounting to some \$1,000,000  
per office of the Government, the Sol-  
et, paper, providing its account is paid,  
for \$10,000, the estimated profit upon  
which will be \$3, which will thus rep-  
resent the extent to which the Sol-  
et will have profited this year by the federal  
Government."

"Such being the case, says Mr. Pa-  
caud, we will add the amount to the  
thousand or so of dollars that the  
editors of the federal elections in Bon-  
aventure and Champlain have made us  
spend in printing, and the result, I be-  
lieve, will be that they have refused to  
pay us, on the pretext that Mr. Pacaud  
has been in the habit for some years past  
of furnishing this gratuitously to the  
party."

"From the manner in which the at-  
tack from the party is continued in  
the editorial notes of the above paper,  
it is quite clear that an arrangement of  
the Ministers surrounding the paper  
of Quebec is now Mr. Pacaud's object.  
He says:

"Hon. Mr. Blair has not forgotten the  
newspapers of his city, St. John, N.B.,  
in the distribution of patronage. They  
figure for \$20,000 in advertising and  
\$15,000 for printing during the first  
year of power. A paper of the same  
kind, The Transcript, did printing to  
the extent of \$17,000. St. Louis  
Davies has shown himself very zealous  
for the newspapers of his city—Char-  
lottembourg, I.E.T. They figure for \$1,  
125 for advertising and \$1,000 for  
printing. If Mr. Choquette  
has been charged with the duties of  
Judge, perhaps the newspapers of Que-  
bec would have had a larger share."

"Upon which the Montreal Gazette makes  
the following remarks:

"Mr. Pacaud is certainly being very  
badly treated, if what he says be true.  
He has worked hard for the Grit party,  
and done many things to help it in its  
life. It is, therefore, rather cruel for  
his old partner, to turn him out in the  
way he has. It was formerly said  
that there was honor among thieves,  
but from Pacaud's disclosures it ap-  
pears that it is not always the case."

"We would suggest to Mr. Pacaud that  
he continue to kick and kick and kick,  
but that he should not be so stupid as  
to let the desired 'recognition' be  
that he proceed to tell the story of the  
making and payment of these election  
notes of 1901. That story will bring  
both Laurier and the Grits to their  
knees, for they know that had as his  
reputations now are, they would be much  
worse than the whole lot in respect to that  
infamous transaction was made public."

## E. T. HOOLEY BEHIND BARS

Is a Possibility if the Charges of  
Fraud Can Be Proven.

The Boston Pneumatic Tire Deal Makes  
him Liable to Commitment for Trial  
by a Judge and Jury—The Receiver  
Reports Against Him, and Says Hooley  
Destroyed Every Trace of the Trans-  
action's Government Enquiry.

London, Jan. 23.—The official report  
in the Hooley bankruptcy case has given  
equal surprise and satisfaction, for the  
public doubted whether the receiver  
would have the courage to include in his  
absolute plain speaking in the matter.  
His charge of fraud, if proved, renders  
Hooley liable to two years' imprison-  
ment, with hard labor. Moreover, accord-  
ing to the bankruptcy law, the official  
receiver's report is in itself prima facie  
evidence of the statements therein con-  
tained. The only possible sequel is the  
commitment of Hooley for trial before a  
judge and jury on the Boston pneumatic  
tire deal indictment.

In this case Hooley bought 30,000  
shares of the stock of the concern. On  
the same day the capital of the company  
was raised from 400,000 to 470,000 by  
the creation of 10,000 21 shares. Hooley  
then made the starting offer to buy up  
the company on the basis of 25 s. a share.  
The directors made the offer public, but  
sent letters and telegrams to the share-  
holders urging them not to sell, on the  
ground that the company was doing an  
enormous business. The shares rose to  
35 s. The offer was eventually refused, but  
during the excitement Hooley was un-  
derstanding his shares at the top price. A net  
profit was made of 420,000 l. by what the  
receiver calls fraudulent rigging of the  
market, the allegation being that Hooley  
and the directors were acting in collu-  
sion. The receiver says that Directors  
Lawson and Bradshaw took half the net  
profit and Hooley the remainder. He fur-  
ther charges that Hooley destroyed every  
trace of the transaction, including books  
and cheques.

There has been talk of an application  
to Parliament for a Government enquiry  
into Hooley's allegations. It is not, how-  
ever, as yet known whether such an effort  
will be made by the public prosecutor  
to life for means of a criminal trial the  
whole business.

The report asserts that Hooley paid  
450,000 l. on the first day of trading of  
prospective of his cycle companies, and  
of other, expended 2,000,000 l. for pro-  
motion expenses. He spent 400,000 l.  
on the creation of the company in the same  
13 months in which he lost 420,000 l.  
The public is now waiting to know how some  
of his associates can be compelled to dis-  
gorge their huge illegal gains.

## SLAP AT THE BRITISH ARMY.

Broad Arrow Tells of Prejudiced Reports  
Put in Circulation by the French.

London, Jan. 23.—The leading organ  
of the army, The Broad Arrow, publishes  
an article this week which has given a  
shock to people here who have lifted up  
their hands in praise of the French  
military shortcomings, as revealed by the  
Dreyfus affair. The Broad Arrow draws  
an analogy between the system of the  
confidential reports of the British army  
and the French secret dossier, and says  
that the British system is "a far more  
military administration, which results in  
confidential reports being in many  
cases a mere waste of paper."

The Broad Arrow explains that com-  
manding officers are empowered to make  
reports which reflect on junior officers,  
and influence the War Office in its  
selection for promotion, without the  
reports being informed of the selection.  
"The effects of prejudiced reports are  
often most disastrous to the officer's  
prospects. La Chose Jugee is regarded as  
a fact. A particular officer in point has  
been thus far smothered, but we are in-  
formed that the facts will sooner or later  
be published in the press, which will not  
leave a doubt that the officer in point  
has actually been committed. The secret  
archives of the War Department con-  
tain tales of careers blighted on absolutely  
unreliable evidence, contradictory proof  
which has been in the hands of the  
authorities, who, in order to avoid a  
scandal, related all endeavors upon the  
part of the victim for a fair investiga-  
tion."

## GLADSTONE AND KITCHENER.

Dead Civilian at a Discount Compared  
with the War Hero.

London, Jan. 23.—Great Britain pre-  
sents a vivid contrast between the  
potency of civil and military fame. To  
put it boldly, Gladstone dead is quoted  
at 200,000 l. in the memorial market, while  
Kitchener, alive, easily commands  
250,000 l.

The promoters of the Gladstone mem-  
orial, who expected to secure 200,000 l.  
to establish libraries in the principal cities  
throughout popular contributions, are great-  
ly depressed at the results of the appeals  
to the people. After several months these  
appeals have only raised 70,000 l. in collect-  
ing one-tenth of the sum desired.

But in the case of Kitchener, who  
dazzled the empire with the laurels of a  
day's work in the field, thousands of  
savages by the perfection of military dis-  
cipline and machinery, the British climb  
up the ladder of the memorial market, and  
pour money into the "college for heroes,"  
otherwise, the Gordon memorial college,  
at Edinburgh, to which people who  
have never been in a country they never  
cared for, as a tribute to the conqueror.  
The Gladstone fund, however, will be  
made up by wealthy men, who will glad-  
ly give their money, but who are griev-  
ously disappointed in the lukewarmness of  
the people who called him leader, and  
whom they expected to contribute sponta-  
neously.

## Kitchener Is the Man.

Gladstone, Jan. 23.—A decree has been  
signed appointing General Lord Kitch-  
ener Governor-General of the Sudan.

## Still Parading Zele.

Paris, Jan. 23.—There was another  
sale of the furniture of Emilio Zele, the  
author, here Saturday, for the purpose of  
defraying the 2,500 francs cost resulting  
from the first sale. His friends offered to  
assist the matter, but the magistrate re-  
fused to allow them to do so. The first  
lot offered was a looking glass. It was  
bought by Emilio Zele's publisher, M.  
Favre, for the full amount of the claim.  
There was no excitement, and there  
were only a few people present.

## CAUGHT IN AN ICE FLOE.

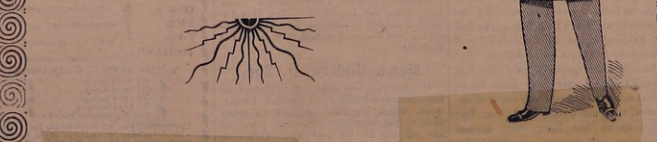

Ferry Niagara's Narrow Escape From  
Going Over Niagara Falls—An Anxious  
Time for Passengers.

Buffalo, N. Y., Jan. 23.—Locked in a  
massive ice floe, the Canadian ferry  
Niagara, with 19 persons on board, was  
swung helplessly down the Niagara River  
on Saturday night and wrecked on the  
International Bridge.

The boat, which plies between the city  
and Fort Erie, Ont., left her dock at  
10 o'clock on Friday evening, and was  
on her last trip of the day, having on  
board 19 passengers, of whom there were  
12 women and two children. Her crew  
consisted of four men. The river was full  
of ice that drifted in from the city for  
miles, but the boat headed gallantly against  
the current and made her way to the  
west of the river, where she was be-  
lieved to be in a great deal of ice, and her  
engines were powerless to propel her.  
The current at that point is very strong,  
and the momentum of the ice led her  
across the bridge with its in spite of the

## PERILS OF THE BRIDGE.

A Young Lady and Her Escort Carried  
400 Yards on the Ice.

Niagara Falls, Ont., Jan. 23.—The ice  
bridge of 1899 will go down in the his-  
tory of Niagara as being the greatest ice  
jam ever known. The past few days the  
flow of ice over both falls has been ter-  
rific, piling up mountains high in  
the basin below the falls.

About 4 o'clock yesterday afternoon,  
from the effect of the water and ice  
pouring over the falls, and not enough  
space below the ice to allow it to escape,  
the great force of the water bodily lifted  
the Niagara River bridge, and carried it  
down the river 400 yards. At the time  
about a dozen people were on the bridge  
and with a heavy scramble all were  
safely landed on the shore. The danger  
and the shore, they had to make their  
way across the ice jam to the Canadian  
shore, where they were met by a hard-  
frozen and hazardous and was witnessed  
by the thousands of excited people that  
both lands and bridge.

The two young  
people were C. E. Milner of Buffalo,  
N. Y., and Miss Jessie Hall of John-  
stown, Pa.

The Maid of the Mist docks, locked  
and ashore are completely "wrecked"  
by the ice, which has buried them out of  
sight. The loss will be several thousand  
dollars.

Mr. Milner Steps Out, Too.  
Vanover, Jan. 23.—Mr. J. H. Mil-

has resigned. Government papers have  
said Mr. Turner, ex-premier, will not sit  
again; also that Victoria elections will  
take place Feb. 2.

Snailshell in Collector.  
Windsor, Ont., Jan. 23.—It is reported  
from South Colchester that three new  
species of snailshells were discovered in a  
family where the first was discovered.

For coughs, colds, bronchitis and all lung  
and throat troubles, there is no preparation  
of medicine that does so much good as  
Hick's Anticroupal Syrup. It never fails to  
afford prompt relief, and is a valuable  
remedy in all cases of croup, whooping  
cough, and all the ailments of the throat.  
It moves all secretions and cleanses the  
throat, and soothes the inflamed mem-  
brane, and by promoting  
expectoration, removes the mucus which  
blocks up the tubes, and causes difficulty  
in breathing, thereby relieving the sufferer  
of the distressing and often fatal condition  
of the chest. Public speakers and singers will  
find Hick's Anticroupal Syrup a most  
valuable remedy, as it soothes the throat,  
and keeps it in perfect condition, and  
prevents all irritation, and keeps the  
throat and vocal cords, and I give  
power to the vocal cords, rendering the  
voice clear and sonorous, and parents wish-  
ing to save the lives of their children, and  
themselves from much anxiety, trouble and  
expense, let them prepare a bottle of Hick's  
Anticroupal Syrup, and whenever a  
child has taken cold, has a cough or hoarse-  
ness, give the Syrup according to directions.  
It is easier to be good than great—there is  
less opposition.

At Death a Door—Dyspepsia Conquered—  
A Great Medical Triumph—Gentlemen,  
My medical adviser and others told me I  
could not possibly live when I commenced  
to use Northrop & Lyman's Vegetable Dis-  
covery for Dyspepsia. My case was one of  
the worst of its kind. For three years I could  
not eat meat and my weight decreased from  
210 to 140 lbs. All the food I took for three  
months previous to taking the Vege-  
table Discovery was vomited up. I was now  
entirely unable to eat and had gained my  
weight on eating nothing but a  
relish and feel like a new man. I have sold  
thirty dozen Vegetable Discovery since I  
started using it, and I am well known and  
popular in this section how low I was, and  
thought I could not possibly be cured. They  
are eager to try this grand medicine. It  
certainly saved my life as I never expected  
to recover when first I commenced using it.  
I am not exaggerating anything, but feel  
glad to be able to contribute this testimony  
and trust it may be the means of convincing  
others of its value. I am a certain cure for  
dyspepsia. (Signed) Jas. Valour, General  
Merchant, Wotton, P. Q.

Totally Deaf.—Mr. S. E. Grandell, Port  
Perry, Ontario, contracted a severe cold  
last winter, which resulted in my becoming  
deaf. I tried various remedies, and  
consulting several doctors, without obtain-  
ing relief. I was advised to try Dr. Thomas'  
Electric Oil. I warmed the Oil and poured  
it into my ear, and before one-half the  
bottle was used my hearing was completely  
restored. I have heard of other cases of  
deafness being cured by the use of this medi-  
cine.

Cholera morbus, cramps and kindred com-  
plaints annually make their appearance at  
the same time as the hot weather, green

persons are taken from eating these

if they have Dr. J. D. Kellogg's Dysentery  
Cordial, and take a few drops in valium

a cure may be effected by using Thomas'

LABORERS TOGETHER WITH GOD.

Convention of Sabbath School  
Workers of N. Hastings

Two Bright and Interesting Sessions  
Held Yesterday—Address by Mr.  
Alfred Day and Rev. R. D. Fraser,  
M. A., of Toronto.

MADON, JAN. 24.  
(Special to the INTELLIGENCER.)  
The Sunday School Convention for  
North Hastings opened here today at 2:30  
p.m. in the Presbyterian Church. Rev.  
Mr. Claxton, B. D., Presbyterian Minis-  
ter of Edwards, who is the President,  
in the chair. The meeting was opened with  
devotional exercises. The attendance to-  
day was not very large, owing no doubt to  
the large number ill with grippe.

Columbia Presbyterian School, gave an in-  
teresting address on "What a Teacher  
Should Expect from his Class."  
This was followed by a paper by Miss  
Minch, teacher at Allie Settlement,  
Madon, on "What a Class Ought to Expect  
from its Teacher." This was followed by  
a brief discussion.

Rev. R. D. Fraser, M. A., of Toronto,  
then gave an address on "Teachers' Pre-  
parations." This was an exposition of  
the subject matter which was intensely  
interesting. It was a treat of the kind  
which will long be remembered by  
those fortunate enough to be present.

A nominating committee was then ap-  
pointed to report on Wednesday morning.  
The meeting closed at 5 p.m. by benedi-  
ction from Rev. E. W. Mackay.

TUESDAY EVENING.  
The convention resumed at 7:30 and  
was opened by a "Song Service" of a very  
interesting character, conducted by Rev.  
S. T. Barlett.

At 8 p.m. the President, Rev. J. A.  
Claxton, B. D., began his address. It  
covered a wide field and was listened to  
with deep interest.

"Spiritual Issues in Sunday School  
Work" by Alfred E. Day, Provincial Sec-  
retary, followed. Mr. Day has had a long  
experience in Sunday school work, and  
as was expected, did not fail to add to the  
interest of the session.

Rev. R. D. Fraser, M.A., of Toronto,  
then discussed the question, which since  
the advent of the Christian Endeavor So-  
ciety, has come much to the front, viz.,  
"Place of the Young People in the Church."  
As before, his address was both clear and  
interesting. It was deeply interesting and  
awakened marked enthusiasm.

The session closed at 10 p.m. after the  
usual collection had been taken.  
The session will continue to-morrow.

**Local Legal.**

lunatic, and his mother, Mary Weston, was  
appointed a Committee of his person and  
estate.

with costs appeal from judgment of  
H. County Court of 10 County Court of  
Belleville, as to damages, with costs, as

da's Greatness ever seen in Belleville.

da's place in the Empire. See advt. on  
1st page for full particulars.

**Royal Templars' Anniversary.**  
A very enjoyable concert programme  
was given last evening in the Royal Tem-  
plars' Hall, as the members and friends of  
the Order celebrated the 10th anniversary of  
the organizing of the council in Belleville.  
The chair was taken by Mr. J. Burns,  
Soleat Council of 10 County Court of Bel-  
leville, who is the President, in the chair.  
Miss Fairchild and Mr. Burns, and other  
graphophone selections were given by  
Miss R. Vanderstam. Mrs. Larkin recited  
with good effect "Poor Little Blossom"  
and "Little Crystal." Mr. C. F. McTavish  
gave a reading from Lord Macaulay on  
the subject of the Templars. The evening  
history of the Society's work in Belleville  
during the ten years, and Rev. Mr. Watch  
delivered an address on the work of the  
Templars in their different departments of  
work. The Order meets on Tuesday even-  
ing and is growing in numbers and interest.

To be entirely relieved of the aches and  
pains of rheumatism means a great deal,  
and Hood's Sarsaparilla does it.

OUR FIRST NUMBER.

The News of Belleville Thirty-  
Two Years Ago.

The Modest Beginning of The Daily  
Intelligencer—The News Then  
Fresh.

In a previous issue we stated that none  
of the Senators appointed for New Brun-  
swick in 1867 were now members of that  
body. We are happy to learn that Hon.  
David Wark is still in the Senate, hale and  
at the great age of 95. He skipped up  
the steps of the buildings last session  
with all the freshness of youth, and was  
able to deliver a very able speech.

From the local news column of our  
first number we learn that a horse belong-  
ing to Mr. J. Bennett, 4th concession of Thurlow,  
had died suddenly, that a post mortem  
was held by T. K. Quickfall, V.S., and it  
was found that it was poisoned—whether  
intentionally or accidentally, was not  
known.

On the Friday previous an inquest had  
been held by G. F. Bull, Esq., coroner, on  
the body of a male infant found in the  
woods in Huntington Township. It had  
evidently been abandoned to perish by  
parties unknown.

A clipping from the British Whig states  
that M. J. Ellerbeck, agent for Pettes,  
Hosie & Co., express line of stage, run-  
ning between Belleville, Madon and Ed-  
dore, had been showing Kingstonians some  
splendid specimens of gold quartz taken  
from the Esplanade mine, twelve miles  
from the far-famed Richardson mine.

There had evidently been some dissatis-  
faction with a new fire engine purchased  
by the Town Council, and the interesting  
information is given that Mr. Roberson,  
Chairman of the Fire, Water and Gas  
Committee, had received a letter from Mr.  
Button, the manufacturer, offering to come  
and test the engine, and if it proved un-  
satisfactory, to replace it by a better one.

In the general news it is stated that the  
trouble between France and Prussia, which  
had brought the nations to the verge of  
war, had been settled by the intervention  
of Great Britain and the war cloud had  
blown over. Alas! not for long, as it after-  
wards proved.

On the 9th of April previous, a member  
of the Imperial Government stated, in re-  
sponse to the question of a member of the  
House of Commons as to whether it was  
the matter of the guarantee to Canada Great  
Britain had any security for the proper ex-  
penditure of the money, that there were  
two securities—one a clause preventing the  
treasury from giving the guarantee until  
satisfied that local acts were passed for  
raising, expending and appropriating the  
money, and another to the effect that in  
case of any waste or excess it must be  
charged to the Canadian revenue before  
any money was raised for other purposes.

**A Happy New Year indeed.**  
To those who believed there was no cure  
for catarrh, and to whom the conservative

breath and broken voice. Send for free  
sample and full particulars. The name of  
this sure cure is Catarrhona. Catarrh-

**THE FAT CATTLE SHOW.**  
Other important Meetings held in  
Connection With it.

Should the fat cattle show for 1899 be  
held in this city, and there appears to be  
every prospect of such being the case,  
there will no doubt be much interest taken  
in it. It is not anticipated that much of  
the prize money would be captured by the  
farming community in this section of the  
country, as our farmers do not, as a rule,  
raise fat cattle to such an extent as to be  
able to compete with those who are in  
the habit of showing at these fairs. It has,  
however been claimed by many that the  
object lesson learned would be invaluable.

At Brantford, during the past two years,  
and also at other places in preceding years,  
where this show has been held, the follow-  
ing annual meetings have taken place in  
connection with the show, and would in  
all probability be held here: The Ameri-  
can Oxford Food and Breeders' Association;  
The Dominion Swine Breeders' Association;  
The American Leicester Breeders' Associa-  
tion; and The Hereford Breeders' Associa-  
tion. The holding of these meetings would  
bring together the best cattle, sheep and  
swine breeders not only of this country,  
but many from the neighboring Republic.

**Wholesale Thieving.**  
The police are under the impression that  
some party or parties on Monday night  
must have been supplied with a vehicle in  
their rounds of visitation to back yards  
in search of clothes. It appears that some  
five or six clothes lines were relieved, in  
addition to those reported to them officially.  
In West Belleville we have heard of  
eight cases where clothes were taken.

I believe Hood's Sarsaparilla is a good  
medicine, because I have seen its good ef-  
fects in the case of my mother. She was

poor and she says she knows of nothing bet-  
ter for her health and she has been cured.

## PRESENTED ITS CLAIMS.

A Belleville Deputation Asks the County Council to Aid the Proposed Show.

No Action Re Third Class Certificates—A Worthy Charity Aided.

Tuesday, Jan. 24.

A communication was read from the City Clerk of Belleville, stating that a deputation from the City Council would wait upon the Council to the fact that the show is to be held.

On motion of Mr. McFarlane, seconded by Mr. Mallory, it was decided to receive the deputation on Wednesday morning at 11.30.

A memorial was presented from Dufferin County Council in respect to grants from the County Council to the Belleville Fair. Referred to Committee on Communications.

A memorial was read from Lanark County Council relating to the regulations of the Education Department in reference to examinations in certain subjects, and advising that no certificates be granted to primary school children. Referred to Committee on Communications.

A memorial from Huron County Council asking for a change in reference to the proposed Belleville Fair. Referred to Committee on Communications.

A petition was presented from Mr. J. Macaulay, of London, asking the Council to compensate him for injuries received on Nov. 19th, 1898, by falling off a bridge near London, it being alleged that the place was dangerous. Referred to Ways and Means Committee.

The Prisoners' Aid Association asked the Council for assistance in carrying on their work of reform. Referred to Ways and Means Committee.

From the Provincial Secretary to High and Public Schools Association, annual meeting to be held in April at Toronto, and asking Council to send a delegate. Referred to Ways and Means Committee.

From the Municipal of St. Thomas, asking for a grant of \$100 for the purchase of the standard work for Councilors and County officials. Referred to Ways and Means Committee.

On motion of Mr. A. Kirk, seconded by Mr. G. H. Holgate, the Council adjourned until 10 o'clock Wednesday morning.

Wednesday, Jan. 25th.

Council meeting at 10 o'clock. Warden English presiding, the members all present. The minutes of Tuesday afternoon's meeting were read and confirmed.

COMMUNICATIONS, ETC. A communication was read from Mr. J. Clark, of Belleville, asking for a grant of \$100 for the purchase of the standard work for Councilors and County officials. Referred to Ways and Means Committee.

A report was presented from Mr. P. V. Kirk, of Belleville, asking for a grant of \$100 for the purchase of the standard work for Councilors and County officials. Referred to Ways and Means Committee.

Mr. Holgate suggested that the School Inspectors be supplied with seats within the bar as they were both present. He moved a motion to that effect, seconded by Mr. A. McKee, which was unanimously adopted.

On motion of Mr. Hanley, seconded by Mr. Holgate, the Council went into Committee on the Ways and Means Committee. Mr. Hanley in the chair.

The memorial of the County Council of Huron in reference to the Clerk of the Municipalities being the custodians of the voters list, was taken up.

Mr. Holgate said the matter appeared to be reasonable, but he could not say whether it would be workable or not.

The County Clerk said there was considerable confusion in reference to the voters list. The clerks of the municipalities ought to have the lists and should furnish them to Deputy Returning Officers in case of election and with the Clerk of the Peace. He thought the petition was a move in the right direction and it was referred to the committee.

Mr. A. McKee thought the clerks of the municipalities should be entitled to the filing of these lists, and be the custodians of the lists. He moved, seconded by Mr. Holgate, that he concur in the memorial. Carried.

A memorial was received from Lanark County asking them to concur in a petition to restore primary certificate examinations.

A despatch from Ottawa says: Yesterday the Department of Militia received copy of the order received from the Secretary of War, Lord Wolseley, commanding-in-chief, with the approval of the Secretary of State for War.

"Canada's general service medal." (1) "Her Majesty the Queen has been graciously pleased to approve of a medal being granted to all officers, non-commissioned officers and men of the regular and colonial forces who were employed in repelling the Fenian raids on the Canadian frontier in 1866 and 1870, or who were engaged in the Red River expedition in 1870.

"The medal shall be issued to all survivors who, during the operations specified in paragraph 1, performed under orders from competent authority." (2) "Who served as guards at any point where an attack from the enemy was expected, or

(3) "Who were detailed for some special or special service or duty." (4) "Who were engaged in the Fenian raid, 1870, or 'Red River', 1870, respectively, will also be issued to those who are entitled to the medals under paragraphs 1 and 2."

A good deal is being said about the "sensational" newspaper. One would suppose that there is no other kind, but we have in mind a notable example of a newspaper which is never dull, is always bright, new, up-to-date and clean, and yet never "sensational." We mean the Illustrated Express.

**DROPSY TREATED FREE—CURED.** I have cured many thousands cases called dropsy. From first onset symptoms rapidly disappear, and in ten days at least two-thirds of all symptoms are removed. Book of testimonials in numerous cases sent free. 10 days treatment free by mail. Dr. H. H. Green's Sons, Specialists, Atlanta, Ga.

Mr. John Johnston, School Inspector, on being asked for his opinion, said he was not in favor of muddling with the matter at present.

Mr. Hanley, Inspector for North Hastings, spoke in a similar strain.

Mr. Holgate was in favor of the memorial. The department was running wild in raising the standard. The present regulations militated against the children of the poor. He moved that the memorial be concurred in.

Mr. Cross moved in amendment that no action be taken.

Mr. Mallory and Mr. McFarlane were in favor of the amendment, which prevailed.

No action was taken in respect to the memorial from the County Council of Huron to assist in securing a uniform coat of arms and highways.

On motion of Mr. McFarlane, seconded by Mr. Hanley, Robinson and Taylor, was then received.

The Prisoners' Aid Association asked for assistance. Messrs. Cross, Holgate, McFarlane, and the Warden endorsed the work of the Association and were in favor of a small grant being given.

Dr. Falkner did not think this County was benefited by the work of the Association.

On motion a grant of \$10 was given.

THE FAT STOCK SHOW. A deputation from the City Council, consisting of Mayor Johnson, Aldermen Doyle, Hanley, Robinson and Taylor, was then received.

Ald. Doyle was the first speaker. The deputation were present in reference to the proposed Fat Stock Show. The one who was proposed to hold here. Belleville would be a suitable place, as every accommodation could be provided. The only question was the expense. The cost would be about \$300 and the City Council would be willing to pay one-half the amount.

Ald. Robinson said the City was not seeking this show, but the show was seeking a suitable place. The City would not receive much benefit from the show out of its share of the expense. There was nothing to the hotel-keepers.

Mayor Johnson said that Mr. Mallory was due the credit of bringing this matter to the attention of the City Council. He (the Mayor) was anxious to secure anything which would be of benefit to the community, and the City was willing to bear its share of the expense. There was no doubt that the fair would be a benefit.

We have forged ahead in the cheese-making industry until we now control the Old Country market. Here was an opportunity for the City and County to unite in promoting an object of much importance. Before taking his seat, His Worship congratulated Warden English upon the honorable position to which he had been elected.

Ald. Hanley spoke in the same strain.

Ald. Taylor said that if the farmers and the citizens of Belleville would unite in the show the show could not fail to be a success.

In reply, the Warden assured the deputation that the matter would receive the immediate attention of the Council.

Mr. Mallory moved that it be taken up as soon as possible.

Ald. Doyle reminded the Council that the Executive Committee, of the City Council were empowered to act in the matter.

Before retiring the Mayor, on behalf of the deputation, thanked the Council for the courteous attention given to them.

The Council then resumed in Committee on the Ways and Means Committee.

No action was taken in regard to the request of the Provincial School Trustees Association that the County send a delegate to their annual convention.

Council adjourned at noon.

**Dakota Divorce.** The Kincaid Review says it is in receipt of a letter from Rev. James Anderson, of the M. E. Church at Sioux, S. D., who requests it to notify those who contemplate taking advantage of the 90 day relationship and the case of C. C. R. and his wife, who are now in the hands of the law.

They will have to become American citizens and remain in the state one year before they can be divorced. It was under the old law that the following adaptation of Longfellow's Indian verse in Hiram was used:

Thus departed Hiawatha To the land of the Dakotas, With his wife and her women. And in ninety days returning A divorcee he brought with him; So his wife he gave her back, Sent her back unto her mamma, In the outskirts of Chicago.

## SPORTING NEWS.

LOCAL.

Ice races will be held at Marmora tomorrow and Friday. Valuable prizes are offered and the entries are quite good.

The cold snap of last night had the effect of making good ice at the rink, and in consequence the outers will again be in their glory. An effort will be made to have the Club matches played off as soon as possible.

The local hockey players are delighted at the prospect of having a match with the famous team of Queen's University, Kingston.

Mr. Frank McKee received word this morning that he would visit Belleville and play here to-morrow night. As they hold the championship of college teams of Canada the match will be one of great interest. The best team that can be gathered in Belleville will be chosen for the contest.

**PLAINFIELD ODDFELLOWS** Held Their Annual Tea and Concert Last Evening.

The Plainfield Lodge C.O.O.F. held their annual concert and tea Tuesday night, which was a great success. Their large hall was well filled with a gratifying number of guests.

The chair was occupied by Mr. E. N. Gould. The programme was by far the finest ever put on in the village. It consisted of selections by the far-famed Mohawk Glee Club, of Deseronto; songs and recitations by Mr. H. H. Hargrave; songs by Mr. J. O. Hart, of Ross; songs by Miss Maud Parker, of Pouches; recitations by Mrs. R. Thompson.

The best way to avoid sickness is to keep yourself healthy by taking Hood's Sarsaparilla, the great blood purifier.

**Dakota Divorce.** The Kincaid Review says it is in receipt of a letter from Rev. James Anderson, of the M. E. Church at Sioux, S. D., who requests it to notify those who contemplate taking advantage of the 90 day relationship and the case of C. C. R. and his wife, who are now in the hands of the law.

They will have to become American citizens and remain in the state one year before they can be divorced. It was under the old law that the following adaptation of Longfellow's Indian verse in Hiram was used:

Thus departed Hiawatha To the land of the Dakotas, With his wife and her women. And in ninety days returning A divorcee he brought with him; So his wife he gave her back, Sent her back unto her mamma, In the outskirts of Chicago.

**One On "Ossifer Billy."** The Hamilton Herald quotes as follows from Sanitary Inspector Morton's report: "By using the patent eye case no complaints have been made by our citizens of any eyes not conducive to salubrity," and describing it as "the language of diplomacy."

**To Attend the School.** Our Melville correspondent writes that the officers, who are at the school, expect to be in attendance at the Provincial school here next month.

## CHICAGO ACTIVE.

The Wheat Market Was So Lively That It Reached Record Prices at Well as Chicago Stronger.

Chicago, Tuesday, Jan. 25. Liverpool wheat futures today advanced a net 1/4 to 1/2 per cent over yesterday's closing prices. The market was very active and the prices were generally higher than the day before.

Chicago's wheat market was an active one today. The professionals are evidently attempting to extend the boom from Wall Street to the Chicago pit, and are using all sorts of arguments to advance prices. For instance, talk of damage to crops by frost is rife, but there is no substantiation of these reports. Another reason given for the advance is that the weather is so favorable for the crop, but the close showed a net gain for the week.

**Leading Wheat Markets.** Following are the closing prices today at important centers:

Of all chronic headaches are due to some form of eye trouble requiring glasses as the remedy. Other disorders, arising from an over-expenditure of nerve force, occasioned by defective eyes, are also cured by removing the original source of the trouble.

Now, instead of taking at once to medicine, if you are a victim of repeated headaches, you can be cured.

The County Council Declines To Meet the City Half Way.

An Interesting Debate On the Proposition.

Wednesday, Jan. 26th.

AFTERNOON SESSION.

Council resumed at 2 o'clock, Warden English in the chair.

Mr. Mallory gave notice that he would on Thursday introduce a By-law to appoint a Board of Examiners for third class teachers.

Mr. McFarlane gave notice of motion to borrow a sum of money from the bank.

Mr. Cross gave notice that he would introduce a By-law to appoint High School Trustees and a Board of Auditors.

Mr. Holgate moved, seconded by Dr. Faulkner, that Mr. F. B. Parker be appointed Chairman of the Roads and Bridges Committee. Carried.

On motion the Committee of the Whole on Ways and Means resumed, Mr. Denyes in the chair.

The matter of the fat stock show was taken up.

Mr. Bellamy spoke in support of the matter. Belleville had now the necessary building for the holding of the show. The new skating rink was in every way suitable for such a purpose. The city has to provide, in addition to the building, heat, light, water and straw. The expense, he thought, would be about \$800. A very class is added to the show. The price list is a large one, amounting to about \$4,000. He was prepared to meet the city half way.

He moved that \$150 be granted to the city of Belleville to assist in defraying the expenses in connection with the holding of the fat stock show.

The Warden said that no doubt the show would be a benefit, but there was no guarantee that it would be here more than one year. He was in favor of the show and if the granting of \$150 would secure the fair, he would support it.

Mr. Hanley thought the County of Prince Edward should assist in this matter as they were equally interested, and in close proximity to the city. He was in favor of granting \$100.

Mr. McFarlane said Belleville had a good building for the holding of the show. He believed the fair would be held here more than one year. He (the speaker) had it upon the authority of Col. Ponton that the drill shed could be secured for the holding of the fat stock show.

The city should take the initiative in the matter. He was in favor of granting \$100.

Mr. Cross thought that Belleville would receive the greater benefit of the fair. He was in favor of granting \$100 towards assisting the show.

Mr. Holgate concurred in all that had been said, with the exception of granting \$100. He believed the fair would be held here more than one year. He (the speaker) had it upon the authority of Col. Ponton that the drill shed could be secured for the holding of the fat stock show.

The city should take the initiative in the matter. He was in favor of granting \$100.

(Special to the INTELLIGENCER.)

WARKWORTH, Jan. 25.—The fifth annual Convention of the Campbellford District Epworth League was held here yesterday.

The first session opened at 10.30, Rev. J. W. Totten conducting devotional exercises.

In the absence of the President, Miss S. J. Abernethy, through illness, the Vice President, Rev. Mr. Campbell, was called to the chair. Rev. J. R. Peake gave an instructive Bible reading.

Rev. E. Johnson, Hastings, conducted the devotional exercises at the opening of the afternoon session, after which a two minute report was read from each league.

The District Treasurer's report was read and adopted. Misses Love and Lord, of Warkworth, sang a duet, after which Mr. F. C. Stephenson, of Toronto, gave a stirring address on the Forward Movement for Missions. In the absence of Rev. M. McCauley, of Keene, Mr. Campbell very ably read a paper on the "Epworth League Reading Course." A splendid paper was read by Mr. T. H. Mills, Campbellford, on "League Members in Revival Work."

At the evening session, after a bright song service, Rev. J. Johnson, of Hastings, spoke on "Consecration."

A resolution was read by Mr. T. Mills, "Resolved, that the Campbellford District of the Epworth League do all they can to support the Rev. Mr. J. S. of Whitefish Lake, N. W. T., now laboring among the Indians, and that the General Board send the picture of this man and a short sketch of his life for distribution among the Leagues of this District."

On motion of Mr. Spafford this resolution was adopted, and the discussion carried. After several earnest prayers for deeper consecration, the meeting adjourned.

A resolution on motion of Mrs. Campbell, that stirring letter recommended as the order for holding the next convention, was carried.

On motion the date was left with the Executive to decide.

**A LIBERAL PAPER'S OPINION OF "Constitutional Philistines."**

**Suit Between Mother and Son Over Will of Late John Bryson, M.P. for Pontiac.**

(Special to the INTELLIGENCER.)

Ottawa, Jan. 29.—Judgment has been given by Judge Lavigne in the celebrated Bryson will case. John Bryson, M.P., of Bryson, Pontiac, died several years ago leaving the bulk of his immense wealth, consisting principally of Upper Ottawa timber lands, to his son, Geo. Bryson. The young man attended Ontario Business College in your city, and while there consulted Col. W. N. Ponton, the college solicitor, the result being this action which has culminated so disastrously.

The Judge grants the application of Geo. Bryson and authorizes him to accept all legacies and benefits bequeathed to him by the late John Bryson, the late John Bryson, under his will, and to make an inventory of the assets, properties and liabilities for such purpose.

The effect of the judgment will be to keep the estate distinct and separate from the estate of his first wife, and it is expected it will secure the payment of \$100,000 to Geo. Bryson out of his father's estate almost. He will also obtain three-quarters of his mother's estate besides.

CAUSE OF THE SUIT. The circumstances leading up to the suit were these: The late John Bryson was married to his cousin, Miss Christina Bryson, in 1874, without a marriage contract, and by the laws of the Province of Quebec what is known as community of property existed between them, and in the eye of the law this community owned all the property which they acquired after the marriage, and all the movables that they had at the date of their marriage. The late John Bryson had therefore, owned one undivided half of the assets of the property and the late John Bryson the other half. She died on the 24th of September, 1897, and her children as her heirs, who inherited her share of the property of this community. One of the children, John Bryson, died when a minor, and her estate was settled, and her share of the property was divided between her two sons, John Bryson, and the other half by her brother, George J. Bryson. So now after the death of his sister, John Bryson claimed that he owned three-eighths of his father's estate, and the other half of the assets of the community.

The late John Bryson died in 1880. Previous to his death he made an inventory of the property of the community and recognized therein that his first wife owned the undivided half of the community property, and that he owned the other half. He also recognized that his first wife owned the undivided half of the community property, and that he owned the other half. He also recognized that his first wife owned the undivided half of the community property, and that he owned the other half.

It need not, however, be at all alarmed at the temporary delay in the suit, as the Premier's position, although it is considered, be ever crystallized into form, the Globe will support it with as much earnestness as the Free Press itself.

**BAY OF QUINTE FISHING.**

A Correspondent Contends That the Use of Gill Nets Should Not Be Prohibited.

The Fishermen Are Already Overburdened with Restrictions—Game Fish Still to Be Found.

To the Editor of the INTELLIGENCER.

The Belleville papers of Jan. 13th contain copies of some resolutions passed by the Fishermen's Association of Belleville, and copies of which were sent to Toronto, urging the Government to prohibit altogether the use of gill nets in the Bay.

Now, Mr. Editor, the writer is not a fisherman, but it seems to me it is a bad idea which does not work both ways. The members of the Club say in their resolution that the Bay is becoming depleted of game fish. I have been speaking to some of the older fishermen and they assert that there are a reasonable number of those fish in the bay yet, and an over-supply of pike and other deep-water fish. It is a well-known fact that the men engaged in this industry, and a very important one it is to the people of Belleville and district, have been greatly hampered during the past few years by the regulations in the Government.

Quota a number of the fishermen along the Bay have been laid off for the last year, and now the last straw has been laid on their backs by the Fishermen's Association, when it asks that the use of gill nets be prohibited, thus destroying the business of the fishermen altogether. It is to be hoped that the Government will consider the hard-working men, for the most part, who are at least mostly self-respecting, and if they are to be prohibited, they will have to leave the Department of Fisheries will see their way clear to disallow the request of the petitioners.

If some of the restrictions to which the fishermen are now subjected were removed we would have a better fish market in Belleville and the people would not be compelled to pay for fish which they have to catch themselves. Give the fishermen their rights and matters in that direction will be much improved.

Thanking you for the space, I subscribe myself, Sir, your obedient servant, JAMES CURTIN.

**REDUCING THE LOSS.**

HOW GOODS DAMAGED BY FIRE AND WATER ARE HANDLED.

Featured in Almost Every Original Condition by Experts. Reported by the Warehouse Companies—The Tricks of the Trade.

A recent fire, by which a large stock of merchandise was destroyed, has caused much inquiry on the subject of the salvage of goods, and how they are to be handled.

Insurance companies and adjusters of fire losses have no difficulty in answering the question of the salvage of goods, but they are not so ready to answer the question of the salvage of goods, and how they are to be handled.

Sometimes the salvage company works for the owners of the goods, and sometimes for the insurance companies. In the former case, the salvage company is to be paid for the goods, and in the latter case, the salvage company is to be paid for the loss.

THE TEXAS RANGERS.

Colonel "Rip" Ford's Story of One of Their Indian Fights.

"What was the most desperate fight you can remember, Colonel?" The question was addressed to Colonel "Rip" Ford of the old-time Texas Rangers. The Colonel—a very old man, with a wealth of snow white hair and beard—hesitated, for the question asked for quality, not quantity. After much study he told the story of a fight which occurred in 1851, and Frederic Remington repeats it in his "Crooked Trail."

One of the Rangers in the fight was a man named San Antonio. An Indian prisoner was taken. On his return, while passing the Nueces river, he spotted two Indians. Taking seven men, he ordered the rest to continue along the road. The two Indians proved to be a man and a woman. The man was a Texas Ranger, and the woman was a Texas Ranger's wife. The man was a Texas Ranger, and the woman was a Texas Ranger's wife.

THE DESERONTO DIAMETER.

The Most Important Industry  
Yet Established in the  
Rathbun Town.

32,000 Tons of Charcoal Pig Iron to be  
Turned Out Annually—Not One  
Pound at Present Produced in  
Canada.

(From a Nanapan Beaver special.)

Deseronto, Jan. 25.

The new Charcoal Iron Smelting Works  
here are now completed. Fires were  
started last week in the melting tank, as  
to get the fire brick lining dried and war-  
med. Probably during this week regular  
operations of iron smelting will commence.  
These works are, probably, the most im-  
portant of any of the industries ever yet  
established at Deseronto. The estimate is  
that directly or indirectly, a hundred men  
will find employment in connection with  
them, representing a very considerable in-  
crease in the number of families and popu-  
lation in this section; a large addition to  
the railway and navigation freight traffic;  
a new and permanent market to the farm-  
ers for all coarse wood they may have to  
dispose of; the opening up of iron mines  
in the rest of this and the adjoining coun-  
ties, and the production of at least 12,000  
tons of charcoal pig iron annually, of which  
not a single ton is now being produced in  
the Province of Ontario.

All the new materials are, or will be, the  
products of Canada. Whatever, therefore,  
comes out of the works will be clear gain  
to the country. Tens of thousands of dol-  
lars are now every year sent out of Canada  
to purchase just such iron as will soon be  
produced here, at the rate of 35 tons each  
day.

Charcoal iron is mostly used for the  
manufacture of railway freight car wheels,  
and of malleable iron. About one-third of  
the metal used in the casting of iron or  
steel is also charcoal iron. It is much  
more expensive and far more valuable than  
the pig iron manufactured by the ordinary  
process, and is only produced in few coun-  
tries, because of the scarcity of wood for  
charcoal making. In England enormous  
quantities are used, and it has all to be im-  
ported for lack of charcoal. Sweden and  
Norway have been principal sources of  
supply. The probabilities are that Eng-  
land will be glad to purchase all Canada  
may have to sell for many years to come,  
as it is a very valuable product for all our  
Canadian daily and farm produce.

But Canada ought to furnish a large and  
constant home market for charcoal iron,  
for car-wheel making alone. We have now  
in the Dominion, in round numbers, over  
17,000 miles of railways in operation, in-  
cluding sidings. There are over 50,000  
freight and baggage cars, with eight wheels  
each, and of each such car wheel 500 lbs.  
of charcoal iron is used. These facts will  
give an idea of the enormous quantities of  
iron used in casting car-wheels alone.  
Then the average life of these wheels is  
about three years. Thousands of tons of  
charcoal iron are every year needed for that  
purpose in Canada and we are now sending  
out hundreds of thousands of dollars worth  
of iron that we can thus have supplied  
at home.

The works were commenced here in May  
last and ever since from 40 to 100 men  
have been at work. The works are situated  
on a large tract of land, and their ap-  
pliances cover nearly four acres of  
ground. Four large and substantial  
buildings have been erected and all the  
most modern and improved machinery has  
been put in. Good judges state that there  
are no more complete works anywhere to  
be found. The present output is expected  
to be about 35 tons of iron each day. The  
works will require over 60 tons of iron ore  
with 50 bushels of charcoal for each ton of  
pig iron produced, besides very consider-  
able quantities of lime stone. There are  
now 12,000 tons of hematite iron ore on the  
grounds from the celebrated Lake Superior  
ore beds. As soon as practicable all the  
ore used will be from Ontario mines, and  
the ore used will be from Ontario mines, and  
the ore used will be from Ontario mines.

KILLED ON THE RAIL.

Alexander Stewart, Formerly  
of Belleville, Meets Death  
In a Wreck at St.  
Paul.

A Wife and Two Children Suddenly  
Deprived of Their Bread-winner.

A telegram was received in the city this  
morning from St. Paul, Minn., stating that  
Mr. Alexander Stewart had been killed in  
a railway wreck near that city. The unfor-  
tunate man was formerly a well-known citi-  
zen of Belleville, having for years been an  
employee upon the Great Northern, but in  
the capacity of fireman and of engineer.  
He was about 40 years of age and leaves a  
wife and two children. Mrs. Stewart was  
formerly Miss Maud Mayo, daughter of the  
late Mr. Henry Mayo, an aged and estim-  
ated citizen who died a few years ago. Mr.  
Stewart left Belleville some 3 years ago  
and resided in St. Paul. He was an en-  
gineer on the Great Northern Railway, and  
was en route to his home when the col-  
lision occurred in which his life was  
sacrificed. The remains are en route to  
this city and will probably arrive to-  
night. Mr. Murdoch McDonald, a  
brother-in-law of Mr. Stewart, who also  
resides in St. Paul, is accompanying the  
body. Mr. Stewart was at one time a  
member of Belleville Lodge No. 81,  
I.O.O.F., but since his removal from the  
city had withdrawn.

"Sandy" as he was familiarly called,  
was a general favorite among the G.T.R.  
employees and citizens generally. The  
news of his untimely death will be learned  
with deep regret, and every sympathy will  
be extended to the widow and children in  
the affliction which they are now called upon  
to bear.

follows to the International Bazaar:

The writer had the great pleasure of  
spending a Sabbath in the beautiful little  
City of Belleville and attending the seven-  
ty-sixth anniversary of the famous Bridge  
st. School, the pride of the Province. For  
twenty-seven years the present Superin-  
tendent has labored with this school, and  
has made it a model of efficiency and  
progress. His name is William Johnson,  
and a sketch of himself and school ap-  
peared in the Sunday School Era.  
The average life of the school is about  
thirty years, and occupies a modern and  
capacious building, and is the centre of  
attraction to all visitors to the city. On the  
anniversary day, the ex-Premier, Mayor,  
and many honored persons occupied the  
platform, all former scholars. In recent  
years, quiet attention to work in class,  
prompt response to the Superintendent's  
words, and in a wholesome school pride  
and enthusiasm of officers, teachers and scholars,  
is the standard of personal conduct.  
The name of the school is "The Bethany,"  
and referring to the great school of  
John W. Winkler, which from 1820 to 1850  
it magnified the Senior Department, and  
the regular attendance, the oldest here eighty-  
seven years of age. Many old members who  
have retired from active work are to be  
found at its sessions. Its point of special  
interest was a class of about 100  
young men under Mr. P. O'Brien, of  
himself a prominent young lawyer of  
Belleville. This class is a model  
of all that is best in the school, and  
of its kind, and its methods, if there were  
space to describe them, would help greatly  
to solve the "young man" problem.  
The class has its officers, its bank account, its  
charities, its socials, its library and parlia-  
mentary system of personal conduct,  
which is firmly established, with fine mis-  
sionary and benevolent aims, and all this  
to overflowing. In future Bazaar  
writer hopes to present a sketch of a "sin-  
gle" of the class of Mr. Frank Yeigh, of Toron-  
to.

### SIR MACKENZIE'S VIEWS

Sir Wilfrid Laurier's Scheme Would  
be Unconstitutional and In-  
operative.

Montreal Star: Sir Mackenzie Bowell  
arrived in the city this morning from  
Belleville, and is a guest at the Windsor  
Hotel. When seen by a Star reporter in  
reference to the former Prime Minister said:  
"I think it is simply an attempt to do  
legislation. I am not thoroughly familiar  
with the details of the plan and will prob-  
ably have to wait until the House meets to  
get them, but of two things I am confident:  
Sir Wilfrid's scheme, if adopted, would be  
unconstitutional and inoperative."

"And you are of the opinion that it  
should be vigorously opposed?"  
"I did not say so," was the parting re-  
mark of Sir Mackenzie, as he ascended the  
stairs.
